Item No. 1 2010 Capital Local Street Renewals, Alley Renewals and Granular Roadway Improvements – Delegated Authority to Director of Public Works
eFile SC-3

STANDING COMMITTEE RECOMMENDATION:

The Standing Policy Committee on Infrastructure Renewal and Public Works concurred in the recommendation of the Winnipeg Public Service and recommends to Council:

1. That the projects outlined in Attachment 1, to the report of the Winnipeg Public Service dated November 17, 2009, be approved for the 2010 Province of Manitoba/City of Winnipeg funded Capital Local Street Renewals, the 2010 City of Winnipeg Capital funded Alley Renewals and Granular Roadway Improvements.

2. That the Director of Public Works be delegated authority to identify new projects using surplus funds in the 2010 Regional and Local Street and Active Transportation Facilities Capital Programs.

3. That subject to adoption of the 2010 Capital Budget, the additional funds identified for Local Street Renewals, which is an increase of $3,400,000.00 over the $12,000,000.00 previously identified in the 2009 Five Year Forecast, be allocated as outlined on Attachment 2, to the report of the Winnipeg Public Service dated November 17, 2009.

4. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

RECOMMENDATIONS

1. That the projects listed in Attachment 1 be approved for 2010 Province of Manitoba/City of Winnipeg funded Capital Local Street Renewals, the 2010 City of Winnipeg Capital funded Alley Renewals and Granular Roadway Improvements.
2. That the Director of Public Works be delegated authority to identify new projects using surplus funds in the 2010 Regional and Local Street and Active Transportation Facilities Capital Programs.
3. That subject to adoption of the 2010 Capital Budget, the additional funds identified for Local Street Renewals, which is an increase of $3,400,000 over the $12,000,000 previously identified in the 2009 Five Year Forecast, be allocated as shown on Attachment 2.

IMPLICATIONS OF THE RECOMMENDATIONS

The approval of individual projects for Local Street Renewals, Alley Renewals and Granular Roadway Improvements is required from the Standing Policy Committee on Infrastructure Renewal and Public Works.

The projects listed in Attachments 1 and 2 are to be funded by the 2010 Capital Program, once adopted by Council.

HISTORY

The proposed 2010 Capital Budget includes capital funding of $15,400,000 for Local Street Renewals, an increase of $3,400,000 over the $12,000,000 identified in the 2009 Fiver Year Forecast; $2,750,000 for Alley Renewals and $3,000,000 for Granular Roadway Improvements. The Local Street Renewal component also includes a Provincial contribution.

Attachment 1 lists the local streets, alleys, and granular roadways recommended for renewal in 2010. Attachment 2 lists the additional local streets recommended for renewal in 2010.

In the event that Council adopts a lesser budget for Local Street Renewals, Alley Renewals or Granular Roadway Improvements, the Director of Public Works will determine which locations would be deferred to 2011.

In the event that surplus funding accrues upon advertising the projects, it is recommended that the Director of Public Works be delegated authority to identify new projects utilizing surplus funds in the 2010 Regional and Local Street and Active Transportation Facilities Capital Programs.

The following considerations were taken in developing the list of recommended locations for renewal:

- The distribution of the local street renewal projects among the fifteen wards of the City is based on the proportion of local street renewal needs in each ward compared to City wide needs.
- The alley renewals are distributed among three wards with the highest number of alleys in poor condition.
- The most recent ratings from the Pavement Condition Rating System were used to determine the distribution of projects.
- The gravel road improvement projects have been identified as priorities based on safety, traffic volumes, route continuity and excessive maintenance costs. Murray Avenue and Ferrier Street are planned for surveys, design and property acquisitions only in 2010.

The attached lists of proposed local street renewals and alley renewal projects have been reviewed with the respective ward Councillors.
