5. That the matter of operating hours and additional costs for the Hargrave Bridge (Newport Building) and East Portage Bridge Agreements be received as information.

REPORT SUMMARY

Key Issues:

- The Planning, Property and Development Department (Real Estate Division) were part of the 'Readiness Committee" to support the official opening of the MTS Centre and ongoing operations. The Division facilitated a discussion with various building and bridge owners connected to the WPWS to ensure that MTS Centre Patrons could access

various underground parking structures via the Weather Protected Walkway System (WPWS) before and after events at the MTS Centre.

- The Planning, Property and Development Department (Planning and Land Use Division) are responsible for the administration and operation of the WPWS and the Winnipeg Parking Authority, a Special Operating Agency, for the operation of the Millennium Library and Winnipeg Square Underground Parkades. The Forks North Portage Partnership is responsible for the administration and operation of the Portage Place Underground Parkade.

- Because the City is responsible for the operation of the Millennium Library and Winnipeg Square Parkades that are situated along the WPWS and there is financial benefit in selling existing unused parking lot capacity to MTS Centre Patrons, the Winnipeg Parking Authority has agreed to pay for the additional operating costs of extending the operating hours within the CityPlace (Donald Street) parkade.

- The Winnipeg Parking Authority has also agreed to pay up to $15,000 in the additional costs towards the Cargill Building, Garry Street Bridge, 240 Graham Avenue Building and Fort and Graham Avenue Bridges. This agreement is contingent on the participation of the Downtown Biz Association agreeing to pay the remaining $6,432 in additional costs. The Winnipeg Parking Authority reports that the Downtown Biz Association is prepared to pay the additional annual costs provided that the Parking Authority identifies a central contact person to deal with the WPWS operational issues.

- Should a formal agreement not be completed with the Downtown Biz Association, the Department would then propose to amend the operating hours associated with this portion of the walkway to eliminate the additional costs.

REASON FOR THE REPORT:

The Planning, Property and Development Department are seeking approval from the Standing Policy Committee on Downtown Development for amendments made to the CityPlace-Millennium Library, Garry Street and Fort Street and Graham Avenue Bridge Agreements.

HISTORY:

The original details and history of each Overhead Bridge Agreement is attached for information purposes as Schedule "A".

By Report dated November 24, 2003, the Planning, Property and Development Department requested Council approval to: approve the creation of two new Bridge Agreements, approve the assignment of 3 existing Bridge agreements, and; to delegate authority to the Director of the Planning, Property and Development Department to approve and finalize the terms and conditions for the Bridge Agreements relative to the MTS Centre.

During 2004, representatives of the MTS Centre requested that the WPWS be made accessible for MTS patrons seven days a week until 12:30 AM.

The Planning, Property and Development Department considered this request and developed an appropriate strategy to amend the existing WPWS operating hours. The strategy was based on the premise that the additional operating costs associated with the extended operating hours should be paid for by the major underground parking lot owners in proximity to the WPWS and the MTS Centre. Subsequently, the City (Millennium Library underground parkade, Winnipeg Square underground parkade), 2017166 Ontario Ltd. (CityPlace parkade) and the Forks North Portage Partnership (Portage Place underground parkade) discussed the matter of payment for additional operating costs.

By facsimile dated September 29, 2004, Aspen Property Management, the Agent for Consolidated Properties (Owner of Portage Place Shopping Centre) advised the Planning, Property and Development Department of the estimated cost for additional operation of the walkway between MTS Centre and the Portage Place Shopping Centre.

By letter dated October 29, 2004, the Planning, Property and Development Department notified 20117166 Ontario Ltd. (the new owners of CityPlace) that it was amending the operating hours of the CityPlace – Centennial Library Bridge Agreement effective November 16, 2004 and that the additional operating costs would be calculated in accordance with the formula in the Agreement.

By letter dated October 29, 2004, the Planning, Property and Development Department notified Royal Canadian Properties Limited that it was amending the operating hours of the Garry Street and Fort Street and Graham Avenue Bridge Agreements effective November 16, 2004 and that the additional operating costs would be calculated in accordance with the formula in the Agreement. Royal Canadian Properties Limited requested that the City pay for all of the

additional costs in accordance with the formula because the City would benefit through increased parking revenues at the Winnipeg Square underground parkade.

By letter dated November 1, 2004, the Planning, Property and Development Department notified the BLJC Company, the agent for Canada Post, that it was amending the operating hours of the Smith Street Bridge Agreement effective November 16, 2004 and that the City would pay for the additional operating costs. Originally, Her Majesty provided a one-time contribution to maintenance for the entire term of the agreement.

DISCUSSION:

As identified on the attached Misc. Plan 12005/5, various overhead bridges have been constructed to link the new MTS Centre with the Portage Place Shopping Centre, the Millennium Library and the Winnipeg Square Parking Structures.

1. <u>CityPlace – Millennium Library Bridge and Post Office Building and Smith Street Bridge Agreements:</u>

Specific details related to the CityPlace-Millennium Library Bridge and Post Office Building and Smith Street Agreements are outlined in Schedule "A" attached.

The Public Works Department (Building Services) estimated the additional annual operating costs for the CityPlace-Millennium Library Bridge, the Millennium Library Corridor, the Smith Street Bridge and the Post Office Building Corridor at $21,000.00. By contract, the City is responsible to pay for 2/3 of the maintenance costs for the CityPlace-Millennium Bridge portion and to pay all of the costs for the Millennium Library Corridor and Smith Street Bridge.

In accordance with the premise that the additional operating costs for the walkway should be borne by the underground parkade operators, the Department notified 2017166 Ontario Limited (the new owners of CityPlace) and Public Works Canada of the change in operating hours 7:00AM until 12:30AM Monday through Sunday, and that it would pay its proportionate share according to the existing formula in the Agreement. The Department did not extend its willingness to pay for the entire additional cost since 2017166 Ontario Limited operates the parkade within CityPlace and would benefit from the MTS patrons who require parking. Given the need to utilize the Millennium Library underground parkade, the Winnipeg Parking Authority Special Operating Agency agreed to pay 2/3 of the $21,000.00 or $14,000.00 per year, which will be offset by increased public parking fees for special events.

In addition to the hours of access issue, the Planning, Property and Development Department inquired of 2017166 Ontario Limited as to the request for additional right of way as shown on Schedule "B". Redcliffe Realty, the Agent for 2017166 Ontario Limited verbally advised that it is agreeable to the request and is awaiting the receipt of an Amending Agreement.

The agent representing Public Works Canada, BLJC Company agreed to the change in operating hours.

2. Cargill Building and Garry Street Bridge and 240 Graham Avenue Building and Fort and Graham Avenue Bridges:

Specific details related to the Garry Street and Fort and Graham Avenue Bridge Agreements, are outlined in Schedule "A" attached.

Royal Canadian Properties Limited has estimated the annual additional cost to operate the Garry Street Bridge, the Cargill Building Corridor, the Fort Street Bridge and the Graham Avenue Bridge at $21,432.00.

By contract, the City is responsible to pay for 2/3 of the maintenance costs for the Garry Street Bridge. In addition, the City is responsible for paying 1/3 of the maintenance costs for the Fort and Graham Avenue Bridges.

In accordance with the premise that the additional operating costs for the walkway should be borne by the underground parkade operators, the Department notified Royal Canadian Properties Limited of the change in operating hours, from 7:00AM to 12:30AM Monday through Sunday. The Department also advised that it would pay all of the additional operating costs for the extension of hours in accordance with the existing formula in the Agreement, even though it is legally responsible to pay the 2/3 and 1/3 portion of the costs. The Department extended its willingness to pay for all additional costs because it operates the Winnipeg Square Parking Structure and would benefit from the MTS patrons. Given the need to utilize the Winnipeg Square Parking Structure, the Winnipeg Parking Authority - Special Operating Agency agreed to pay up to $15,000.00 of the additional $21,432.00 per year from increased public parking fees for special events. On this basis, Royal Canadian Properties Ltd. voluntarily agreed to extend their regular operating hours of the Garry, Fort and Graham Avenue Bridges and the Cargill and 240 Graham Avenue Corridors from 8:00AM to 7:00PM on ordinary business days to 7:00 AM until 12:30AM Monday through Sunday, as of November 16, 2004.

Since the Winnipeg Parking Authority cannot justify paying the entire additional cost of $21,432.00, a shortfall of ($21,432 - $15,000) $6,432.00 will be created.

To address this shortfall, the Department has developed two alternatives:

1) Approach the Downtown Biz Association to provide up to $6,432.00 per year to cover the shortfall on the basis that many Downtown merchants are benefiting from increased pedestrian traffic using the WPWS; or,

2) Amend the operating hours to the original operating hours, that existed prior to November 16, 2004.

The Winnipeg Parking Authority has indicated that the Downtown Biz Association is prepared to pay the additional annual cost of $6,432.00 provided that a central contact person is identified within the parking authority to deal with the WPWS operational issues. The Winnipeg Parking Authority is prepared to designate a central contact person to deal with the WPWS operational issues.

If a formal agreement with the Downtown Biz Association cannot be completed with regard to additional funding, the Department may proceed with an adjustment to the hours of operation for that portion of the Weather Protected Walkway System.

3. Newport and East Portage Bridges:

Specific details related to the Newport and East Portage Bridge Agreements are outlined in Schedule "A" attached.

Aspen Property Management, the Agent for Consolidated Properties (Owner of Portage Place Shopping Centre), estimated the annual additional cost to operate the Newport and East Portage Bridges and to provide access from the MTS Centre to the Portage Place Shopping Centre at $50,000.00/ annum. By contract, the City is not responsible to pay the maintenance costs of the Hargrave Street or East Portage Bridges.

In keeping with the premise that the additional operating costs to extend the hours of the walkway should be borne by the Underground Parkade Owner, the Department advised Aspen Property Management that it should contact the Forks North Portage Partnership regarding the increased operating costs as it is the Owner and operator of the Portage Place Underground Parkade.

The Department was advised that Aspen Property Management and FNPP reached a mutually satisfactory agreement on the additional costs and that access is being facilitated between the MTS Centre and the Portage Place Shopping Centre Parkade.

Departmental Comments:

The Weather Protected Walkway System is an integral means of improving the movement and circulation of pedestrians within the Downtown. The MTS Centre connects the Designated Walkway (Graham Avenue east of CityPlace) and Other Walkway (Portage Avenue west of the MTS Centre) at the second level.

Prior to the opening of the newly constructed MTS Centre, the Readiness Committee identified patron access via the WPWS to underground parkades (Millennium Library, Winnipeg Square and Portage Place) as an important issue. The Planning, Property and Development Department were requested to explore the feasibility of obtaining additional access.
The Department explored the feasibility based on the following:

- That the beneficiaries of the extended WPWS hours of operation should pay for the additional costs; and,

- That the City should not be required to fund the additional operating costs.

Being that the prime beneficiaries of the extended hours are the underground parkade owners, the Real Estate Division initiated discussions with the Winnipeg Parking Authority and the Owner of CityPlace regarding the operation of the Millennium Library, Winnipeg Square and CityPlace Underground Parkades relative to the Graham Avenue east portion of the WPWS. Based on these discussions, the Winnipeg Parking Authority agreed to pay up to $29,000 in additional operating costs on the basis that it would recover same through increased parking revenues. The Owners of CityPlace agreed to pay up to $7,000 in additional annual operating costs given the benefit to its parkade operation. As well, the Downtown Biz Association agreed to contribute $6,432 towards the cost of the Graham and Garry Street Bridges on the proviso that the Winnipeg Parking Authority would become the central point of contact for WPWS operational issues. The Winnipeg Parking Authority is prepared to accept this organizational responsibility given its relationship to access and parking in the Downtown.

The Owner of the Portage Place Shopping Centre and the Forks North Portage Partnership (Owner of Portage Place Underground Parkade) were encouraged to discuss the additional costs of the Portage Avenue West portion of the WPWS. The parties reached a separate understanding that does not require any City funding.
