Report

REASON FOR THE REPORT:

Subsection 104(3) of *The Municipal Board Act* provides that where lands affected by a building restriction caveat (a "brc") are located in Winnipeg, no order of the Municipal Board may be made to cancel the brc unless Council has by resolution, recommended such cancellation and a certified copy of its resolution is filed with the Board.

HISTORY:

Application DASSF 525/2007 was made April 5, 2007, to subdivide the properties located at 205 Bloomer Crescent and 436 Elmhurst Street. Title to the property at 205 Bloomer Crescent owned by Robert and Karen Niedzwiecki under Certificate of Title 2052358 is subject to the brc. Before the subdivision under DASSF 525/2007 can be registered, the Winnipeg Land Titles Office requires the discharge of the brc.

Mr. James Dixon with the Law Firm of Monk Goodwin, on behalf of the current property owners, has made application to the Municipal Board for removal of the brc in favour of Solarch Design Ltd.

The agreement between Solarch Design Ltd. and Robert Soloway attached to the caveat, requires the owner to abide by the "Architectural Controls" set forth in Solarch's "Offer to Purchase" for the Deer Grove Subdivision Plan 33790 under DASZ 18/1994.

The Municipal Board will schedule a hearing upon receipt of a certified copy of a resolution of Council of The City of Winnipeg recommending the cancellation requested.

DISCUSSION:

The City of Winnipeg had no involvement in the Agreement entered into between Solarch Design Ltd. and Robert Soloway and the brc registered with respect thereof.

Mr. Dixon advised that Solarch Design Ltd. has agreed that the Caveat is no longer required and can be discharged.

The Director of Planning, Property and Development advises that the property is zoned "R1-L - Residential - Single Family" which is consistent with the immediate surrounding area. There is an existing two storey single family residence constructed in 2005 on the property. If the caveat is removed, the owner would still be bound by the existing zoning bylaws under the R1-L designation.

It is surmised that the caveat was filed to protect the property values in the area by ensuring any construction on the land by the purchaser would meet the “Architectural Controls” set by the developer.
