STANDING POLICY COMMITTEE ON

INFRASTRUCTURE RENEWAL AND PUBLIC WORKS

QUESTION PERIOD

Minute No. 226
Councillor Wyatt questioned when Council would be made aware of the administration recommendations for regional and residential street improvements to be made using the 12 million dollars of gas tax funding. Councillor Clement replied that this information would be available when the Executive Policy Committee presents the draft Capital Budget.

Councillor Wyatt asked if the 2005 amount would be rolled into the 2006 Capital Budget based on the fact that the City is receiving the 12 million this year and roughly 12 million from last year, for a total of 24 million. Councillor Clement advised that the actual number was 23,238,000 and confirmed that the 2005 amount would be rolled in with the 2006 amount.

Councillor Wyatt inquired if the 23 million dollar figure would be in addition to the 5 million that was cut out of the Capital Budget as part of the need to balance the budget last year or would it be 23 million minus the 5 million. Councillor Clement advised that this issue would be addressed when the draft Budget was tabled by the Executive Policy Committee.
