REASON FOR THE REPORT:

Council approval is required to amend the Snow Emergency By-Law.

HISTORY:

On November 17, 1993, Council approved a restructuring of the City's Overnight Parking Restrictions prohibiting parking on Snow Routes between 2:00 a.m. and 6:00 a.m. from December 1 to March 1. The revisions and subsequent By-Law changes were intended to increase the effectiveness of the parking bans, thereby allowing the City to satisfactorily perform any necessary snow clearing operations on streets free of parked cars.

On November 16, 1994, Council adopted a report amending Snow Route By-Law 1991/78. The Snow Route System was reviewed in the report and several additions and deletions were recommended. Snow Emergency By-Law No. 6548/95 was subsequently prepared by the City Solicitor and was approved by Council on January 26, 1995. The last amendments to the Snow Route System were made in November, 1996.

DISCUSSION:

Overnight parking is prohibited on Snow Routes between 2:00 a.m. and 6:00 a.m. from December 1 to March 1. Therefore, although the designation of a street as a Snow Route provides a higher level of snow clearing for residents living along that street, it also places severe limitations on the availability of overnight "on-street" parking for residents in the area. For this reason, it is essential that these streets be properly identified.

A revised Schedule "A" and Schedule "B" of Snow Emergency By-Law No. 6548/95 listing Regional and Non-Regional Snow Routes has been prepared and is attached as Appendix I and Appendix II, respectively. The recommended amendments were based on the latest bus route and traffic data information, as well as any new infrastructure that meets the snow route criteria.

The changes to Schedule "A" and Schedule "B" are also indicated in Appendix I and Appendix II, respectively. The streets on the Schedules that are shown in bold face font are streets that either have been added to the list or have had the from/to limits changed. Deletions are listed on the final page of Schedule "B".

Although the revisions to Schedule "A" and Schedule "B" and the streets listed within are based on the most current information and data available, conditions do change

authority to revise any of the schedules as required, as long as the policy is not affected.

Therefore, it is recommended that Snow Emergency By-Law No. 6548/95 be amended to reflect the proposed changes to the Regional Snow Route Systems and that the CAO or his/her designate be given the authority to revise any of the schedules of this By-Law at their discretion.
