RECOMMENDATIONS

1. That Council approves an amendment to the following Council approved capital budgets to reflect a funding contribution from the Spence Neighbourhood Association:

    a. that the 2014 capital budget *Recreational Facility Safety & Accessibility Improvements* be increased from $500,000 to $504,300 to reflect the $4,300 contribution from the Spence Neighbourhood Association for outdoor lighting upgrades to the Magnus Eliason Recreation Centre.

    2. That the Proper Officers of the City be authorized to do all things necessary to implement the intent of the foregoing.

REASON FOR THE REPORT

Council approval is required to amend capital budgets.

IMPLICATIONS OF THE RECOMMENDATIONS

No additional funding is being requested as this report simply recommends the increase to Council-approved capital program budgets where incremental funding from other outside sources has been secured.

HISTORY

This capital program addresses workplace and public safety, health and accessibility issues that are not part of the current service level agreement with the Municipal Accommodations Division of Planning, Property and Development Department.

Each year a portion of the funds will be utilized for installation of security systems, fitness equipment replacement, and facility amenities and accessibility projects within 13 indoor pools and 9 major recreation centres based upon established priorities.

New demands require new and improved security for staff while performing their duties and increased surveillance of non-staffed space within our buildings, both for patron safety and theft prevention within and immediately outside of aquatic and recreation facilities.

The City of Winnipeg has received $4,300 in funding from the Spence Neighbourhood Association to support exterior lighting upgrades and enhancements at the Magnus Eliason Recreation Centre (see Appendix 1).

Funding from the Spence Neighbourhood Association is incremental to the City of Winnipeg's adopted capital budgets.
