STANDING POLICY COMMITTEE ON PUBLIC WORKS

QUESTION PERIOD

Minute No. 767
Councillor Wyatt requested confirmation whether the graffiti policy report would be before Council for consideration in December, to which Councillor Eadie replied that the administration was targeting December.

Councillor Wyatt questioned if Councillors would have the opportunity to provide input on the matter prior to the report being finalized and brought forward to Council, to which Councillor Eadie replied he was not sure whether it could happen before the report was actually signed off by the CAO.

Councillor Wyatt further questioned if there could be a Council seminar or briefing at Standing Committee on work done so far to which Councillor Eadie replied he would take the question under advisement.

Councillor Gerbasi made reference to an article she read regarding a motion which will require business owners to be responsible for cleaning up graffiti, to which Councillor Eadie replied that he was not aware of any motion coming forward, but that when the report came forward there would be further opportunity for stakeholder input if required.
