REPORTS

Minute No. 6 Consultant Assignments for January 1 to June 30, 2009
eFile ST-7

EXECUTIVE POLICY COMMITTEE DECISION:

The Executive Policy Committee received as information the report from the Winnipeg Public Service dated October 23, 2009, pertaining to Consultant Assignments for the period January 1, to June 30, 2009.

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

The Executive Policy Committee requested the Winnipeg Public Service to:

1. Examine the Procurement / Materials Management Policy, specifically the hiring of consultant services over $10,000, as well as the guidelines for determining which contracts are to be tendered vs. sole sourced;

2. Provide information on both best and general practices for Procurement / Materials Management in other jurisdictions across North America and around the World, including provisions required for this level of engineering,

and report back with recommendations (changes) to the Material Management Policy.

DECISION MAKING HISTORY:

Moved by Councillor Fielding,

That the report from the Manager of Materials dated October 23, 2009, be received as information.

Carried

Moved by Councillor O'Shaughnessy,

That the Winnipeg Public Service be requested to examine the Procurement / Materials Management Policy, specifically the hiring of consultant services over $10,000, as well as the guidelines for determining which contracts are to be tendered vs. sole sourced, and report back with recommendations (changes) to the Material Management Policy.

With the concurrence of Councillor O'Shaughnessy, Deputy Mayor Swandel amended the motion by adding the following:

That the Winnipeg Public Service also be requested to provide information on both best and general practices for Procurement / Materials Management in other jurisdictions across North America and around the World, including provisions required for this level of engineering.

Carried

HISTORY

On March 24, 2004, Council adopted Item 1 of the Report of the Executive Policy Committee, dated March 10, 2004, delegating to the Chief Administrative Officer certain authorities of the Materials Management Policy. Under this policy, the Chief Administrative Officer is required to report quarterly on the assignment of consultants.

On August 11, 2004, Administrative Directive FM-002 was approved by the Chief Administrative Officer, re-confirming the previous direction that the Chief Administrative Officer is required to report quarterly to Council on the assignment of consultants.

CONSULTANT ASSIGNMENTS – JANUARY 1 TO JUNE 30, 2009

Attached is information obtained from each department relating to consulting assignments for the first and second quarters of 2009.

For purposes of preparing this report, consulting services are professional services provided directly to the City of Winnipeg. Professionals are defined in Directive FM-002 (Materials Management):

- Medical doctors, dentists, nurses, pharmacists, veterinarians, engineers, land surveyors, architects, accountants, lawyers and notaries (AIT* Professionals) (*Agreement on Internal Trade).

- Information technology consultants, communications consultants, management consultants, training consultants, accredited real estate appraisers, agrologists, dietitians, home economists, interior designers, occupational therapists, optometrists, physiotherapists, psychiatric nurses, psychologists, trainers, speech and hearing therapists and landscape architects (non-AIT Professionals).

The above definition excludes service contracts (e.g. elevator service, public surveys).

With respect to the solicitation of competitive offers, Directive FM-002 dated June, 2007 requires the following with respect to the solicitation of competitive offers:

- When the estimated value of the Consultant Services does not exceed $100,000, single source negotiations are permitted.

- When the estimated value of the Consultant Services exceeds $100,000, the following shall apply:

    1) **AIT Professionals:**
        (a) Where the estimated value of the Consultant Service does not exceed $500,000, single source negotiations are permitted.
        (b) Where the estimated value of the Consultant Service exceeds $500,000 but does not exceed $2,000,000, proposals must be invited, by the department, from no less than three qualified firms or individuals, unless otherwise authorized by the Chief Administrative Officer.
        (c) Where the estimated value of the Consultant Service exceeds $2,000,000, a Solicitation of Competitive Offers must, unless otherwise authorized by the Chief Administrative Officer, be issued through Materials Management.

    2) **Non AIT Professionals:**
        (a) Where the estimated value of the Consultant Service exceeds $100,000, a Solicitation of Competitive Offers must, unless otherwise authorized by the Chief Administrative Officer, be issued through Materials Management.

A summary of consultant assignments retained by The City of Winnipeg for the period of January 1 to June 30, 2009 are as follows:

AECOM Canada Ltd (formerly Earth Tech Canada Inc)	Engineer	Brady Road Landfill New Entrance and Scale Facility	CD	179,200.00	246,186.33	0.00	0.00	0.00	0.00	0.00	246,186.33	The original engineering assignment was based on the project completing in 2006. The construction period was extended to reduce construction costs from the proposed three months to thirteen months. This increased engineering costs for inspection services and disbursements. Overexpenditure Report approved by CFO May 6/08
AECOM Canada Ltd (formerly Earth Tech Canada Inc)	Engineer	Deacon UV Disinfection Project	SS	968,254.00	1,933,967.69	9,931.34	790.56	0.00	0.00	10,721.90	1,944,689.59	During start-up of the facility in early 2005, an unusual operating event resulted in breakage of a UV lamp. Extensive investigation, computer modelling and system redesign were required to mitigate this problem. Subsequently, lengthy and detailed system testing was undertaken to ensure proper operation, followed by retraining of operating staff on the revised system. Finally, a HAZOP of the system was conducted to confirm that appropriate redundancy and control systems were in place and build operator confidence before start-up in May of 2006. Since May, 2006 there have been recurring, serious equipment failures while under warranty which have required further time by the consultant to resolve. This overexpenditure was approved by CFO October 2, 2007.
