October 24th, 2006

Dear Mayor Sam Katz

I am writing to you in regards to Kelvin Community Club. As owners of an Elmwood business (Sub Zero Ice Cream) both my husband and I have a vested interest in seeing our local community club thrive. In order to show our support to the community centre I have started a weekly group fitness class. The participant numbers are continually growing and the class has proven to be a success. The facility itself is perfect for holding these classes. The size of the space, ventilation, cleanliness and proper flooring were all factors in which I considered prior to the start of the program. I am an instructor at various fitness facilities, including the Rady JCC and an avid supporter of people incorporating fitness into their lives. It is wonderful to see the residents of Elmwood coming out to both exercise and support Kelvin Community Club.

Sincerely,
Melanie Thomas
