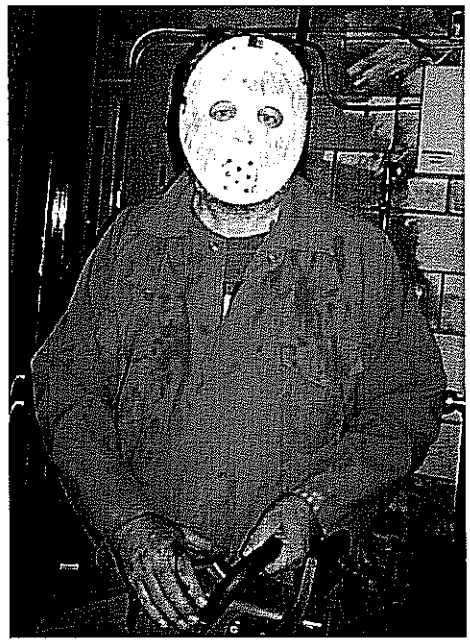
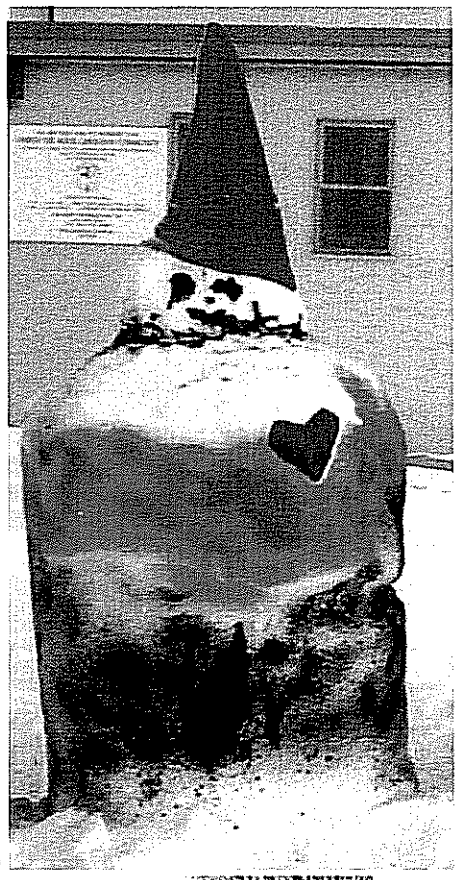
October 29th, 2006

Haunted Houses
Live Entertainment
Free Hot Dogs and Drinks
Kids Activities

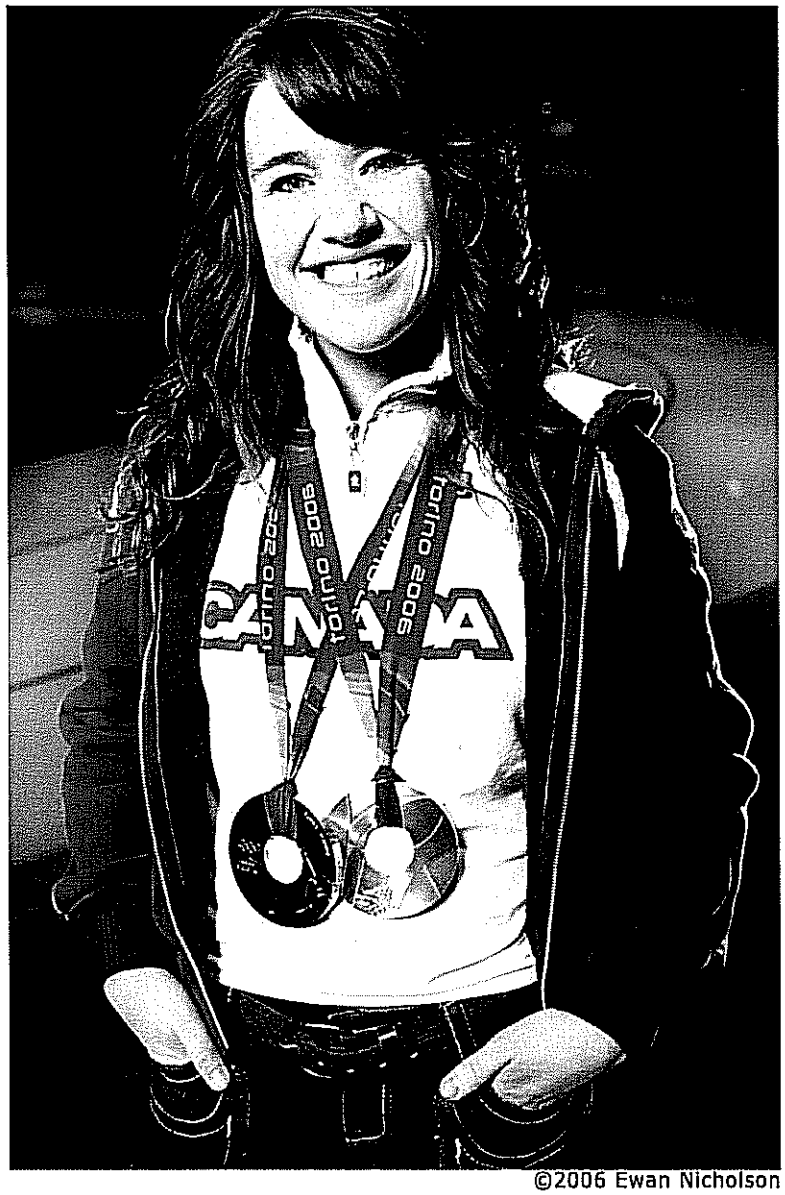


Winter Fun Day
December 17th, 2006

Skating with Santa
Building and Painting Snowpeople
Free Chili and Hot Chocolate



Kelvin Community Centre builds a sense of community among children and families. It's incredible how quickly we're seeing a change in our kids. All we need is your consent and we can continue our work to make Elmwood a better place to live.



©2006 Ewan Nicholson

"People wonder why many of Canada's premier athletes come from Winnipeg. When asked, I always say that the reason is the array of community programs that are available. Coming from Elmwood, my days were spent playing ringette, soccer and softball at Kelvin Community Centre. This is where my athleticism was developed and I cannot help but think of where I would be without access to these sporting programs so close to home. The Community Centre is, in many ways, the heart of a community and a place where kids can go and learn the joys of play, art and so many other positive outlets. These are all crucial to the nurturing of talent and essentially keeps kids out of trouble. A Community Centre is something that should be celebrated and cherished. You just never know where a kid might end up with an outlet like Kelvin CC."
