RE: Speed Limit By-Law 63/2019 – Technical Amendment

Please find attached the above-referenced By-law amendment.

On July 18, 2019, Council approved Speed limit By-Law 63/2019. Schedule A to this By-law describes all portions of highway within the City of Winnipeg where the speed limit is not 50 km/hr.

It has come to our attention that there are a number of errors in Schedule A to the Speed Limit By-Law, including:

1. A row erroneously establishing speed limits for a segment of Inkster Avenue that does not exist;

2. A row relating to a segment of McPhillips Street where the start point and end point of the segment were both erroneously listed as being the "Northern Boundary of Notre Dame Avenue"; and

3. A row relating to a segment of Wilkes Avenue, where both the endpoint of the segment and the speed limit for that segment had been entered in error;

Enclosed is an amending by-law to correct the aforementioned errors. Legal Services considers this amendment to be technical in nature and accordingly, Legal Services proposes that this amendment be brought to Council's attention by means of communication.

An electronic copy of the By-law has been provided by my assistant to Jennifer Ridge and Lorraine King via email.

If you have any questions, feel free to contact me.

Thank you.
