Comments in writing: The loss of the city's gravel and blacktop capacity have not been kind to taxpayers. I laud those who recognize this fact, and want action to fix the problem. This goes beyond cost. When MB and other municipal gov wants a lot of paving done, work here may be delayed, if we have no internal capacity.
I am troubled that this item has no cost data, and no hard evidence that tax $ will be saved if we can make our own asphalt. Why is a sales brochure the only attachment? Why no ROI cost data for the purchase?
