Water 1. In this item, the city is heading in a very wrong direction. Some of the actions of this committee will not reduce the city's GHG production. There is a need to evaluate everything done, in terms of its % net GHG reduction and cost. Trying to convince the public that a useless step is wonderful does a disservice to everyone. Please stop this spin campaign. Instead, an objective analysis of every city-funded 'green' plan should be performed as soon as possible.

Public engagement (optional)

I consent to being contacted to participate in potential public engagement related to this matter.
Yes
