APPENDIX 'A'

DATE: November 26, 2012
FILE: DAZ 233/2012
RELATED FILES: DAV 12-167525/D
COMMUNITY: City Centre
NEIGHBOURHOOD #: 1.106
SUBJECT: To rezone the subject land from "R1-M" Single Family to "C1" Commercial.
LOCATION: 903 Mulvey Avenue
LEGAL DESCRIPTION: Lots 19/20, Plan 804 RL 32/33 in the parish of St. B

APPLICANT: Hardev Bangu
77 Bessboro St. N

OWNER: Same as above

RECOMMENDATION: Approval with conditions

REPORT SUMMARY:

- The owner is proposing to rezone the subject property in order to establish a hair salon business on the premises. The current building (both floors and the basement) will be maintained and utilized for the business.
- The existing garage will be demolished and replaced with a 5 stall parking area accessed from the rear lane
- Fairly extensive landscaping will be installed along the west property line between the parking lot and the adjacent property at 909 Mulvey Avenue.
- The owners and operators of the business will not reside in the building.
- The rezoning results in the creation of a substandard setback on the west side of the principal building necessitating a minor variance. A minor reduction in the west side yard between the

proposed parking area and the west property line also results in a variance as does a reduction in parking stall lengths. All necessary variances are deemed marginal and supportable.

- The Public Service similarly supports the proposed zoning change subject to the accompanying conditions as listed.

SITE DESCRIPTION:

- The subject property, which is zoned "R1-M" Residential Single-Family District, is located at the northwest corner of Stafford Street and Mulvey Avenue in the Earl Grey neighbourhood of the Fort Rouge – East Fort Garry ward.
- The current dwelling unit and garage occupy a 5300 sq. ft. lot.

Surrounding Land Use and Zoning:

North: Residential neighbourhood zoned "R1-M" Residential Single-Family District

South: Residential neighbourhood zoned "R1-M" Residential Single-Family District

East: East of Stafford Street is a predominantly "R1-S" Residential Single-Family housing neighbourhood. At the southeast corner of Stafford and Mulvey Ave (892 Mulvey) there is also a recently established restaurant/deli use in an existing converted dwelling zoned "C1" Commercial.

West: To the immediate west is a single family housing area zoned "R1-M" Single Family District.

Figure 1: Subject Site looking south

DESCRIPTION OF THE PROPOSED DEVELOPMENT:

- The owner is proposing to rezone the subject property in order to establish a hair salon business on premises. The current building (both floors and the basement) will be maintained and utilized for the business.
- The existing garage will be demolished and replaced with a 5 stall parking area accessed by the rear lane.
- Fairly extensive landscaping will be installed along the west property line between the parking lot and the adjacent property at 909 Mulvey Avenue.
- The owners and operators of the business will not reside in the building.

ANALYSIS AND ISSUES:

A. Context:

There is a small retail cluster currently in place along the east side of Stafford Street and south of Mulvey Avenue. More specifically, frontage properties on the east side of Stafford, immediately south of Mulvey Avenue are essentially all commercial for approximately 1.5 blocks. These commercial businesses include a dentist, a chiropractor, and a small multi-tenant commercial building. As well, the property across the street and to the south was rezoned for a small restaurant in October 2012. The majority of properties on the west side of Stafford Street are still occupied with single family homes.

B. Policies:

*O*urWinnipeg and Complete Communities Direction Strategy

Neighbourhood Mixed Use Corridor:

Stafford Street has the characteristics of a neighbourhood mixed use corridor. Neighbourhood mixed use corridors are local collector streets that accommodate retail and mixed use forms in small clusters with low to medium density housing located between the clusters. In order to accommodate the city's anticipated increase in residential, commercial, and employment densities, portions of neighbourhood mixed use corridors will experience moderate growth and change, including the introduction of new commercial development, when contextually suitable and required by market demand.

While commercial development is not appropriate at all locations along neighbourhood mixed use corridors, Complete Communities supports a cluster approach, whereby multi-block sections of corridors, which already have existing commercial development patterns, key intersections, and/or other property influences are encouraged to intensify.

By accommodating commercial development on a corridor, adjacent to an existing commercial development node, the location of the proposed rezoning complies with the intent of Complete Communities.

Commercial Land Supply:

Complete Communities also states (Commercial Areas, Direction 2 Strategy 4) the following:

Approve new locations for commercial development where significant residential areas are not well served with commercial space, where existing commercial areas cannot accommodate expansion, where the long-term negative impact impacts on existing regional and commercial centres will be minimal, where additions to the regional street system can be demonstrated to have long-term benefits and where a full range of municipal services can be provided in an environmentally sound, economical, and timely manner.

In Earl Grey, it is evident that there is significant demand for commercial space and very little vacant commercial space available. Consequently, the addition of incremental commercial space, as proposed under the subject application, meets the criteria in the Plan and will not have a negative impact on existing commercial centres in the neighbourhood.

C. Summary:

The Winnipeg Public Service takes a very restrained approach to commercial conversions of residential properties. In general, they should only occur on corners, on regional streets, and within or adjacent to existing clusters of commercial properties. Furthermore, they should be encouraged to keep the residential structure, whenever possible, to maintain a residential character. In this instance, the subject property meets all of these criteria. For these reasons, the Winnipeg Public Service supports the proposed rezoning, with conditions, to ensure future compatibility with the area. The subject yard and parking lot variances are also deemed to be of a marginal nature and are therefore fully supported by the Public Service.

RECOMMENDATION:

The Planning and Land Use Division recommends approval for the following reasons:

- The proposed rezoning is consistent with Complete Communities
- The rezoning is compatible with the area and will not have an adverse impact on adjoining properties.
