February 23, 2024

To Whom It May Concern,

Re: Saving Happyland Pool

I am writing in my capacity as a member of South St. Boniface Residents Association to object to the proposed closure of the Happyland Pool.

In support of this letter I have attached a copy of our petition signed by 2329 constituents and users of the Pool. We trust that Council will have due regard to these petitioners' wishes.

I do not propose to make an exhaustive case for saving Happyland Pool from the budgeting knife. That case has been ably made by Councillor Allard and we are fully supportive, and endorse, same.

Instead, I write to refute specious arguments that have been advanced in support of killing this essential component of community life for low-income and struggling families.

For example, we are told that Happyland Pool ought to be shuttered owing to "low attendance". With respect, this is complete nonsense. We have closely monitored (and attended) the Pool consistently over the past 7 years and note that the Pool's attendance has been artificially depressed by depriving it of lifeguards and supportive staff. Instead of providing such lifeguards and staff to a free facility serving the community's poor and low-income families where they are desperately needed that staff has been dedicated to the City's "paying pools". Accordingly, it is farcical to claim "low attendance" when the City deprives lifeguards to the Pool and posts signs limiting attendance to 25 persons on account of lack of lifeguards.

Further, the Pool has been steadily deprived of accoutrements in a practice that can best be described as "malign neglect". Lockers have been removed as well as garbage cans and shower curtains. Even poolside chairs remain broken and unreplaced. This all has the look of giving the proverbial "back of the hand" to the community's working poor and low-income families.

We submit that it is hypocritical to the extreme to use a measure of "lack of attendance" when that attendance has been depressed by the City's operational practices and neglect in favour of its "paying pools". It ought not to be needed to state BUT this is not supposed to be a strict business decision on the dollars and cents of the matter. This Council has a governing and moral obligation to ALL of its constituents, not just the "paying ones". This is a facility that is exceedingly important to the community's working poor and for all the reasons proffered by Councillor Allard.

The truth is that Happyland Pool will be fully attended provided that it receives a fair, albeit bare minimum, support from the City. In no event should it be fairly, properly or in good conscience shuttered.

I would add a glaring inconsistency to the City's policy in favour of "Affordable Housing" that the proposed shuttering would represent. Affordable Housing must mean something more than a bare roof. How does it make any sense, from a policy perspective, to advocate for affordable housing to the working poor on the one hand and then to take away an important community recreational service on the other. If the City's "Affordable Housing" policy is to be anything more than "lip service" then it must be accompanied by complementary recreational services for poor and low-income families as well.

Lastly, it is trite to say that the installation of "splash pads" are a sufficient replacement. Quite clearly, they are not. Splash pads may be an alternative for toddlers, but they are no such thing for adolescents, adults and seniors. Your mandate to serve the poor and low-income families in the community extends beyond those toddler years.

The Happyland Pool is a good thing and serves important objectives for the community's poor and low income families. The City ought not to be taking away one of the few affordable options at the same time as it loads up that very same community with thousands more persons at the Canada Packers Development. Surely, the Development Fees that accrue to the City can provide the support that Happyland Pool requires.

With respect, we ask that you factor the foregoing onto your budget considerations and make the good and right decision to keep Happyland Pool and to provide it with the sufficient support that the community deserves.

Sincerely,

Sandra Dupuis

On behalf of the South St. Boniface Residents Association

February 28, 2024

To Whom It May Concern,

Re: Saving Happyland Park Pool

On behalf of the South St. Boniface Residents Association and all the people in support of Happyland Park Pool, I strongly object to the proposed closure of the Happyland Park Pool.

Over 2300 people signed the petition to save Happyland Park Pool.

This should give you an idea of how many people believe that keeping the pool open is vital to the community.

They believe that the pool is an asset and provides many benefits to the current and future residents of the area and surrounding areas.

The pool is used by people in the Dufresne, Archwood, Holden, Norwood, St. Vital and other areas.

The petition was signed by people that live both in and outside the area.

These people currently use the pool, some of the people have moved but still come back to use the pool, some people drive across the city to use the pool because they do not have a public outdoor pool, some bring their children and grandchildren to spend the day at the pool.

All these people signed the petition because they strongly believe that a pool is a necessity and should not be taken away regardless of where it is located but especially this one because this is a low income area that does not have any other amenities. It is needed for the children, teenagers, adults, seniors and people with disabilities.

The city needs to consider more than the budget when shutting down a pool.

It needs to think about all the benefits that having a pool provides.

The pool provides a recreational activity which is safely supervised.

You need to keep the kids off the streets, you need to keep them entertained, engaged, and having fun in a positive way so that they are not enticed by the bad elements in the community.

The pool gives teenagers a place to go to and connect with their friends.

It provides hours of entertainment for everyone.

It provides relief from the heat as not everyone has air conditioning.

The pool provides jobs such as lifeguards and swim instructors.

A pool provides fresh air, sunlight and promotes overall health.

It increases the value of our neighborhood.

It is walkable, safe and inclusive to everyone.

Children, adults and seniors are more likely to use the pool if it is within walking distance.

It also increases public safety by learning to swim. You cannot learn to swim in a splash pad.

Every year there are drownings and then city and government officials say that there should be swimming lessons for everyone. Well, this pool could offer swimming lessons like it did in the past.

We could offer swimming lessons for a small fee.

Every year when the leisure guide comes out there are hundreds of people wanting to enroll their children in swimming lessons but there are never enough spots.

The city should not be taking away recreational opportunities and healthy activities from the community, they should be providing them with more.

Children who grow up in poverty tend to have worse health outcomes, both physical and mental.

That is why we need the city to do more to help these children.

If not for compassionate and humanitarian reasons, for future costs like health care, drug addiction and crime.

The city used to provide so many good services to everyone – now they barely offer anything.

By providing these public spaces, pools positively impact individuals and communities, contributing to a healthier, happier, and more connected society.

It would be a detriment to the community if this pool was closed.

When this pool was built, the City of St. Boniface had the foresight to put smaller pools, which were less expensive to build, in different areas of this community instead of one huge pool that was more expensive to build, that other areas have. This made it easier and more convenient for families to use. They did not have to travel to use a pool as many families did not even own a car. The city knew these pools were vital to this community and many people have learned to swim here and have enjoyed this asset.

This pool has certainly paid for itself many times over by providing enjoyment, exercise, swimming lessons, social connections and family time over the many years that it has been in operation.

We should not be punished because we were fortunate that the city at that time was wise enough to know what the community needed and still needs.

When I heard that the reason to close the pool was due to lack of use, I and many others were appalled to hear this and perhaps the people saying this did not know the real reason that attendance might have been low on some days.

The pool was always being used and there were lineups to get in.

The pool was always being used except when the city took the lifeguards away from this pool to send them to another bigger paying pool. With every lifeguard that they took away that was 25 people that could not get in. Many times there were signs on the door of the pool saying capacity was 25 or 30 people due to lack of lifeguards. This has been going on for many years and it was brought to the attention of the city councillors and the media. You can find many articles and news stories on this on the internet.

We have provided a few of those stories to you along with the petition and letters from the community.

Also, the pool was closed every Saturday and Sunday all last summer. These weekends are when people are home from work and could go to the pool but because it was closed, they could not.

And don't forget covid.

So when someone says that the pool was not being used it is because they did not know the facts of what was really happening.

The city needs more outdoor pools not less.

It should also be noted that this pool has been very cost effective to run over the years.

When you compare our pool to others in the city, you must also take into consideration that the other pools attract more people because they are huge pools with a larger capacity and they offer more amenities like water slides but most people have to drive to get there and they are expensive to get in to.

This is at a time when all governments are saying not to use your car. This is at a time when the city wants to build low income housing for people who do not have cars. How are these families supposed to get to these new huge pools (that cost more to build) and that are far from their homes? This is also at a time when people can hardly make ends meet and so they would not be able to use these bigger facilities.

The city wants to develop the land on the Canada Packers site with residential housing. Apparently, the people that move here will not have cars or so we have been advised. So then how are they going to get to a pool? The city wants to develop the neighborhood but then they want to take away all the amenities.

We do not have swimming pools in our back yards like some people, or cottages, or ways to get to a beach.

The city should be investing in more recreational amenities like this one, not less.

The city closed and demolished the Norwood Pool. The residents of this area were using Happyland Park Pool and now they too will have nowhere to go.

There is also the fact that Bonivital Pool is supposed to be shut down for renovations starting this spring. It will be shut down for about a year apparently.

If Happyland Park pool is closed, there will not be any pools close enough for the children to go to. They would not even be able to afford to go to another pool taking into account transportation costs and admission fees.

If Happyland Park pool stays open the lifeguards from Bonivital could come to Happyland Park Pool.

Also, Premier Wab Kinew had mentioned to us that he was giving the city a substantial amount of money for recreation.

With a portion of the 20,000,000.00 allocated for splash pads that only a few select young children could use, and a portion of the money from Premier Kinew, maybe we could build a new pool at Happyland Park which would cost much less than building a huge pool somewhere else. This would be better value for our money.

More people would benefit from a pool than splash pads which are restricted to only young children. Nobody learns to swim in a splash pad.

I believe that using the money from the city and the province we could build a new pool or definitely renovate the current pool.

The city has also saved money by the closure of the Norwood Pool. This money should have been budgeted for the Happyland Park Pool.

Where did the money from the savings of closing the Norwood Pool go to?

The city, as they did in the past, should have been putting money aside to repair, renovate or replace the pool over the years. This should have been budgeted for every year so that we would not have been put in this position to save the pool.

The fault lies with the city in that they did not budget and save money to repair, maintain and replace the pool as needed or did they use the money that should have been allocated to Happyland Pool, on other larger pools.

We do not want a larger more expensive pool, the people just want to keep this one in this area. This pool best serves the residents in our area.

The smaller outdoor pools are better for the environment as they are heated by the sun and do not use up other resources and where the water does not immediately go down the drain as it does in splash pads.

Again, by looking at the petitions and letters you can see that keeping this pool open is a high priority with many people.

These people come from all over the city, including your wards, and they believe that keeping Happyland Pool is a wise investment for today and the future.

Please do not dismiss the seriousness of our concerns regarding the health and wellness of our neighborhood.

This is not a decision that should be taken lightly as it impacts very many people.

The benefits of having the pool far outweigh closing the pool. It pays for itself many times over.

The city should strive to provide a better standard of living for its citizens, not make it worse.

Sincerely,

Teresa Cwik
President

South St. Boniface Residents Association

To Whom It May Concern,

Recent media reports on the City of Winnipeg 2024 Budget highlight a number of cost cutting measures to services in the city. One such item is the proposed closure of the Happyland Park pools in St. Boniface.

This proposed closure will have a devastating effect on the surrounding neighbourhoods. This comes at a time when these communities have been seeing an increase in the number of families with children moving into the area. Also, with the new development of the Water Tower District on Archibald, there will be a greater, not lesser, need to have recreational activities such as the swimming pool available to the new residents.

It may not be evident to city council that these communities are comprised of mostly lower income neighbourhoods. Families do not have the luxury of going to cottages or readily accessible beaches and lakes. The closest thing to escape the heat on many a summer day is the Happyland Park pool. For many it is a short walk away and provides the much needed respite for kids during the hot summer months.

In the past, the pool had provided swimming lessons for many years to the kids in the neighbourhood. With many newcomers from various parts of the world that have recently moved in, it is more critical than ever that they might have access to swimming lessons at the pool. As has been highlighted by the city in the past that the best way to reduce the number of drownings of children each year is to ensure that children have access to swimming lessons in their community.

Although the city cites the lack of resources as a common theme to justify any proposals for closure of city facilities, they have not fully considered options that may be available to keep these facilities open in the summer. One such option that can be considered is recruitment of youth from these local communities and source funding to allow them to obtain their lifeguard certification. This would then provide them with much needed summer employment, keep the pool open, and maintain services for the short summer months. Perhaps even Water Safety Manitoba could assist in such a program.

Although the closure of both the swimming and wading pool have been proposed, the concern is for the swimming pool to remain open and staffed. The wading pool has been found to be of little use during the summer and can probably be closed with resources concentrated on the swimming pool.

The city seems to be proposing closures and funding cuts to the upcoming budget to recreational facilities and resources when these resources are greatly needed particularly in lower income neighbourhoods. If kids don't have access to these facilities or to various recreational activities, what will they turn to in order to fill their time in the summer

months? Will taking to the streets be the preferred alternative when nothing else is available?

It is hoped that the city will take many of these considerations into account before acting on these cost cutting proposals. And they need to also look at what's needed for all residents in Winnipeg. Winnipeg residents need to know that their taxes are not squandered on wastefull projects but instead are used to provide a better standard of living. Recreational resources and facilities are definitely an important part of the equation.

To whom it may concern:

We were recently informed Happyland Pool and Wading pool would be closing down. We are shocked to hear this, when just a few years ago we were told that the pools would not be touched when looking to add bike lanes and expand Marion and Goulet. Fast forward a couple years to find out this simply isn't true.

In an area, surrounded by industries it is critical to have some joy. The pool is the only fun activity we have in the area, taking away the only pool is simply not fair. The City of Winnipeg should be investing in pools and programs as it keeps people employed, keeps people healthy and physically active, gets people outdoors, which creates a great opportunity for people to meet others in the community, allows families to spend quality time together and increases home values.

The City of Winnipeg closed Norwood pool a few years ago. Bonivital pool will be closing for maintance this spring, for up to one year and now there is mention of closing down both Happyland pool and Windsor Pool. It seems unfair that St Boniface looses 4 pools in such a short period of time, especially when there's plans on developing the land which used to be called Canada Packers, which will bring more people to the area

Rumor is that all these pools will be replaced by one Splashpad. Although spalashpads do serve a purpose, they are geared towards young children not teenagers or adults.

We would appreciate it if you actively listen to the community and what they want and need.

Sincerely,
Kristin Kebalo and Billy Vandervis

Hello, I am saddened to hear of your plans to close another city pool.

There was a time when the people in charge understood the value and structure of a complete, functioning neighborhood. These spaces aren't meant only for people with small children. A free pool brings people of all ages and backgrounds together and also gives teenagers somewhere to go. The summer months are a struggle if your family can't afford camp or to take time off to travel while the kids are out of school.

It wasn't that long ago, 2017, when there was a push to have more swimming opportunities for new immigrants because of drownings at provincial beaches. Now you look to take away one of the few, free pools left in the city.

People are finding it hard enough to buy groceries right now. By taking away this neighborhood pool, any other alternative is a bus ride ($2.75 - $3.25) and an admission ($3.45 youth - $7.75 18+) and a bus ride back ($2.75 - $3.25). That is almost $10.00 for a youth and almost $15.00 for anyone else. A family would cost bus fare (each person both ways) and a group rate at the pool of $15.26. That is almost $30.00 (also factoring in a quarter for the lockers). And you've taken these people out of their community. That may not seem like a lot of money to some people, but to a family in this neighborhood, that could mean the equivalent of 3 well budgeted dinners. This creates a greater division between lower income and middle-class families.

In 1955, when $20,000.00 was invested to build a new pool, people weren't thinking of reasons not to, they were thinking of, for all and forever. Because of their understanding of the needs of the people, countless citizens have prospered from this space.

Short-sightedness does not see the value of investments.

Please reconsider.

February 12, 2024

To Whom It May Concern,

I am a parent and long-time resident of St. Boniface and I want to address the issue of the closure of our pools. Our community is made up of all kinds of people with divergent needs who benefit from the exercise and leisure provided from having a pool in our community.

We have been patient and understanding as we have had to adjust to limited hours of operation due to the shortage of lifeguards and very infrequent facility upkeep at the pool. We are patient because we have been grateful to have our pool available to us.

Our pool is our place of meeting, fun and family time. It is a place that builds the community by bringing us together. It is walkable, safe and inclusive to everyone who lives in the area.

In the face of the upcoming proposal to close the pools we have strong feelings of frustration and disappointment. From a financial position, we are concerned that there was recently a lot of money invested into the upgrade of the pool and do not understand why the choice would be made to invest in the pool and then shut it down so quickly. That presents a concern of a waste of time and money.

The pool is frequently used and is a valued asset to the community so why not continue this tradition as an asset to its community members. If the maintenance fees are the concern, I am sure the community would rather pay a fee for the use of the pool than to see it closed altogether. From a political and social standpoint, closing the pool is a deprivation to our community.

Splash pads and wading pools are a lovely additional feature for younger children and parents to enjoy but they are not as inclusive as a pool.

During the hot months, the pools are our only refuge from the heat and offer our children a chance to learn the skills of swimming.

Please do not dismiss the seriousness of our concerns regarding the health and wellness of our neighborhood and reconsider an alternative solution that does not require the loss of our pool.

As stated earlier, we would be happy to pay for use and maintenance of the pool through daily visit fees or membership.

Thank you kindly for your time and consideration.

Chantalle Dandeneau

Closure of Happyland & Windsor Park pools should be revisited with ideas to fix or replace them as they are used by many in their neighbourhoods. Cost is a major factor but ideas to crowdfund & raise $$ in other ways should come into the discussion. I believe many are in favour in keeping them off the "chopping block. Gauging by remarks on Facebook, those in power in the city should listen to their constituents...

To the Mayor of Winnipeg

My name is Georgia Skarpias owner operator of HAIR PASSION 517 Marion St right across Happy Land Park
I want to say that in the past 30yr I have owned a business in St Boniface and I have had my children and now grandchildren use the pool at Happy Land Park. Now I own the building right across the street and everyday day in the summer I see at least 100 people at a time and a few times I have seen them stand in line to get in the pool but they need to stand out there in the sun because of a capacity rule, so I don't understand why the city is trying to close the pool, please reconsider.

Georgia Skarpias

LETTERS TO THE EDITOR

Keep it a happy land

Re: *Pools targeted for closure cheaper to operate* (March 5)

I strongly object to the plan to close Happyland Park swimming pool. I know this area well. It is a healthy, thriving neighbourhood. People living there have no other alternative to go to any other pool for swimming. The wading pool was closed a few years ago.

If you now close this pool, you will force kids to swim in the Seine River, which is part of the park. Rarely do city pools stand so close to a river. The original pool which was replaced with the present one was built because two boys drowned in the Seine River. I doubt if council members realize this.

For the sake of safety and to enable hundreds of kids to have a place to swim, which they must have, do not close the pool!

WILLIAM OAKLEY
Winnipeg

Invest in recreation

Re: *Pools targeted for closure cheaper to operate* (March 4)

Investing in our pools needs to be looked at from a much broader perspective, not just which pools are cheaper per person to run.

It looks the plan is to invest more in the suburbs and cut services to the inner cities, the poorest. This is the exact opposite of what we should be doing. We should be heavily investing in recreational activities as a province, following the Icelandic model, one of the world's best examples of investing in youth recreational activities to shift the culture away from crime.

Iceland now has one of the lowest rates of crime of all the western countries.

Pools are much cheaper than prisons.

DIANE FROLICK
Winnipeg

Don't take pools away

Re: *Pools targeted for closure cheaper to operate* (March 4)

I'm not sure where politicians get their grey matter, but why would a city take this summer outlet away from children? The pools throughout the city are of value to the young folk, and many parents who cannot afford "going to the lake" on weekends take advantage of that.

The Happyland Pool in St. Boniface has been a mainstay for years. Why change that? I'm not sure whose brainchild this proposal was, but give your head a shake!

Winnipeg, le 20 février 2024

M. le Maire de la Ville de Winnipeg,

Conseil Municipal de Winnipeg

Objet: Maintien des piscines extérieures de Happyland et Windsor Park

Nous, familles immigrantes francophones, résidentes du quartier Saint-Boniface et environs, membres de l'Amicale de la Francophonie Multiculturelle du Manitoba, venons exprimer notre profonde inquiétude face au projet de fermeture des piscines extérieures de Happyland et Windsor Park. Ces installations font partie intégrante de notre communauté depuis des décennies et sont indispensables à notre qualité de vie.

Ces piscines offrent un lieu de rencontre et de divertissement pour les familles du quartier durant la belle saison. Elles permettent aux enfants et aux jeunes de s'amuser en toute sécurité et de développer d'importantes compétences aquatiques. Pour les adultes et les aînés, c'est l'occasion d'exercer une activité physique saine dans un cadre agréable.

La vie de quartier à Saint-Boniface s'articule autour de ces piscines qui favorisent le lien social et le sentiment d'appartenance. Leur disparition priverait notre communauté d'espaces récréatifs de qualité et accessibles à tous. Les familles seraient contraintes de parcourir de longues distances pour profiter d'installations similaires.

Nous comprenons les contraintes budgétaires mais pensons qu'il est primordial d'assurer la pérennité de ces piscines emblématiques. Elles font partie de notre patrimoine local et contribuent grandement à l'épanouissement des citoyens. Nous vous demandons instamment de revoir votre décision et de maintenir ces infrastructures essentielles au dynamisme du quartier Saint-Boniface.

340 Boulevard Provencher, St-Boniface, Manitoba, Canada R2H 0G

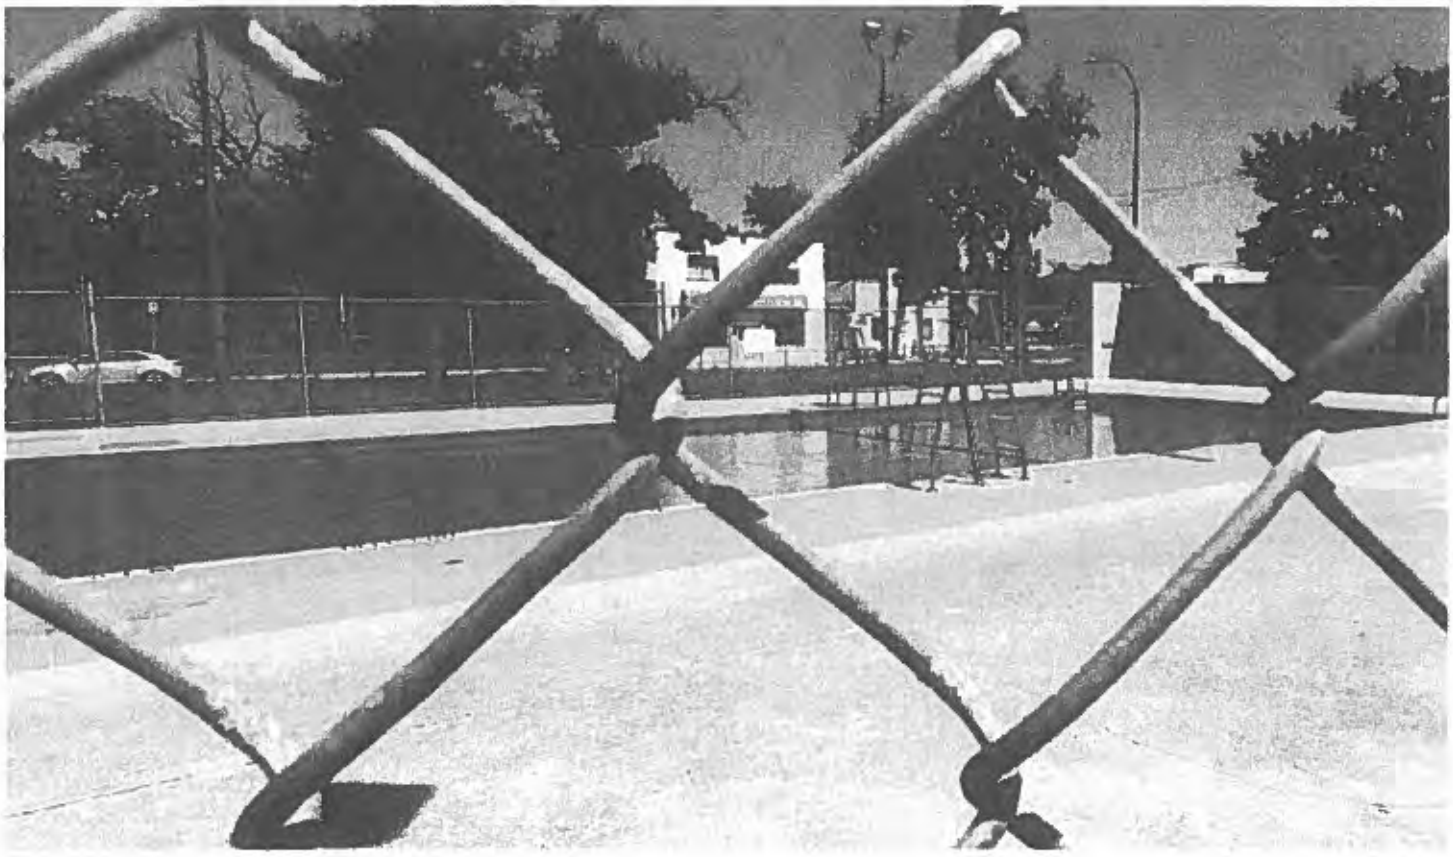
St. Boniface residents' temperatures rise after pool closed on weekends amid sweltering heat

City of Winnipeg blames lifeguard shortage for reduced operations at Happyland Park pool

Cameron MacLean · CBC News · Posted: Jul 18, 2022 3:25 PM CDT | Last Updated: July 18, 2022



Residents are upset because Happyland Pool is closed on the weekends during the hottest time of the year. (Travis Golby/CBC)

Residents in St. Boniface were left steaming this weekend as the gates surrounding the outdoor pool in Happyland Park remained locked due to a shortage of lifeguards

"I would love to bring my eight-month-old son, he loves to splash around in water an play around, and water is his favourite activity at the moment," said Corey Golden.

The free community pool is currently open Monday to Friday but closed on Saturday and Sundays, including this past weekend when sweltering temperatures in Winnipe rose into the low 30s with high humidity levels.

Two years of intermittent services and a reduction in certification courses have created a shortage of lifeguards, a spokesperson for the City of Winnipeg said in a statement.

"While we have maintained pre-COVID service levels over the last several months, there is a greater need for instructors and lifeguards this summer with seasonal and indoor pools open concurrently for the first time in two years," the statement said.

Teresa Cwik is a member of the South St. Boniface Residents Association (Travis Golby/CBC)

Some residents in St. Boniface wonder why the city couldn't find a way to rotate staff through its pools in order to enable all facilities to operate on weekends, which is the only time some families can visit the pool due to their work schedules.

"The city should find the money to keep the pools open all the time, but if for some reason they can't — and I don't understand the reason at all — but they could rotate they could rotate and make it fair," said Teresa Cwik of the South St. Boniface Residents Association.

- **'Sorry we're full': Long waits at free pool irk Winnipeg swimmers**
- **Lead levels in city soil decreasing but one St. Boniface neighbourhood still concern: study**

The pool near the corner of Marion Street and Archibald Street serves a community with many low-income residents, many of whom don't have access to a vehicle to drive to another pool, Cwik said.

City staff do their best to spread leisure activities across the city, the spokesperson said.

Worried about pool's future

Sandra Dupuis, also a member of the South St. Boniface Residents Association, says she worries the cutbacks at the Happyland pool could be setting the stage for the cit to permanently close the facility.

"We're worried that we're going to be losing everything, and we don't have anything else that we can give up in this area. We need what we have here," she said.

This isn't the first time the pool has faced staffing shortages. In 2017, residents who spoke to CBC News said they were forced to wait in long lines as a shortage of staff

spoke to CBC News said they were forced to wait in long lines as a shortage of staff limited the capacity to 15 people at a time.

"There was always staffing issues," said Rodney Kennington, who wanted to bring his children to the pool on the weekend and was surprised to find it closed.

- **Extreme heat is killing Canadians in major cities — and it's going to get worse**

City staff do their best to minimize the overall impact on recreational services across the city, said St. Boniface Coun. Matt Allard.

"I'm not aware of any reason why our pools in St. Boniface would be any different, and I know that Happyland is a pool that we have in St. Boniface that has been invested in in my term," he said.

In addition to the impact of the pandemic on recruitment and training, the Canadian Red Cross is no longer offering certification for lifeguards, the city statement said.

"We are currently planning to transition to the swim and lifeguard training programs of the Lifesaving Society of Canada," the statement said.

"While we have acknowledged certifications from both organizations in the past, streamlining to one certification will assist with quicker employment eligibility."

The city is also implementing an Indigenous Youth Lifeguard Program to help youth obtain certification, and revising its entry-level Aquatic Instructor position to encourage applications and increase swimming lesson capacity.

Happyland Pool closed at weekends; residents want parity with other local pools

By: Simon Fuller STAFF REPORTER

Advertisement Advertise With Us

Hey there, time traveller!
This article was published **26/07/2022** (586 days ago), so information in it may no longer be current.

ST. BONIFACE

Some residents of a south St. Boniface neighbourhood are upset an outdoor seasonal swimming pool in the community is currently closed on weekends.

Happyland Pool, owned and operated by the City of Winnipeg, is located at 520 Marion St. between the neighbourhoods of Dufresne to the north and Archwood to the south.

Chantalle Dandeneau said she understands that COVID-19 restrictions made things difficult, but now things have eased up she feels there's an inequity at Happyland Pool compared to other pools in the area.

Advertisement Advertise With Us

According to the city's website, the pool opened for the season on June 30 and is scheduled to close on Sept. 2. It's open from 12:30 to 7 p.m. from Monday to Friday and closed on Saturday and Sunday.

Speaking on behalf of the South St. Boniface Residents' Association, association member and longtime area resident Teresa Cwik said locals have a number of concerns about the free pool's weekend closures.

These concerns include several things — an occasional shortage of lifeguards, meaning the pool's capacity is subsequently reduced, which can lead to long lineups outside; and a lack of options to cool off for residents without air conditioning when the pool is inaccessible and the heat and humidity are intense — such as the weekend of July 16 and 17. This can be compounded by the fact some residents who fall into a modest socio-economic income bracket and live within walking distance of the pool have limited means of transport or can't currently afford gas to drive to neighbouring pools.

Two other local outdoor city pools — in Windsor Park and Provencher Park — are both open seven days a week, according to the city's website. Cwik acknowledges labour shortages will have impacts, but wonders why there can't be some parity with other local pools.

"Our pool is closed every single weekend, yet other pools in the area are open," Cwik said, noting the pool's capacity is 75 people if there are two lifeguards on duty, which dips to 30 if only one is present.

"There are times when we have two to three lifeguards on and they pull them, which means we might have 50 to 100 people lined up outside."

"From our perspective, it's not really fair. If we're short, why don't they rotate them? That way all local pools could at least operate six days a week. We're looking for parity with other pools," she added, noting there have also been staffing issues at the pool in the past before the pandemic.

Coun. Matt Allard (St. Boniface) said the public service is doing its best in light of the current situation. He

said as well as the effects of the COVID-19 pandemic on lifeguards, instructors and supervisors, there has been a change in certification for lifeguards — the Canadian Red Cross is no longer offering lifeguard certification and it'll be in the purview of the Lifesaving Society of Canada.

"There's been a change in certification, which the public service has been working on, and there have been training issues. There's a need for lifeguards, and it's short right now. In terms of equity, the public service is doing its best to balance service levels in terms of geographic areas," Allard said.

Allard said he'll be looking into the issue further and that the public service will need to find ways to hire more lifeguards. He said there could be a number of reasons why this situation has arisen, and he'll be consulting with the public service to look at different ideas, adding that renovations to Happyland Pool have been done in his time as area councillor.

"It's frustrating, as this is a really good amenity and the

infrastructure is in place, so it's really tough," he said.

Allard said he empathizes with area residents as he grew up not far from the pool.

Longtime area St. Boniface resident Chantalle Dandeneau is pictured with her children outside Happyland Pool on July 19. The pool is currently closed on weekends and some residents want parity with other local outdoor pools that are open seven days a week throughout the summer.

"I know how important having services like this is, especially to the lower-income families," Allard said.

"I grew up using my bike to get to Provencher Park and spent lots of summers there," he added, noting the city doesn't want the hours at Happyland Pool and services to be compromised.

Longtime area resident Chantalle Dandeneau said it's been

disappointing for her three children — aged 11, 9, and 7 — to walk to the pool recently only to be turned away due to capacity issues. And they're not alone.

"People come from all over, and we know some go out of their way to come here. We see them parking on our street, heading to the pool, and then coming straight back," Dandeneau said.

Dandeneau said she understands that COVID-19 restrictions made things difficult, but now things have eased up she feels there's an inequity compared to other pools in the area. One recent Sunday, she said there were four lifeguards at the pool in Provencher Park, for example.

Her eldest son, Gabriel, wonders if the current aggregate hours at Happyland can't be shifted, so community members can make the best of their family time together.

"We went over there with one of our friends and it was closed, which was disappointing," Gabriel said, adding he thinks being a lifeguard would be "an excellent job" for him sometime in the future.

"I think it would be better if the pool open was at weekends, and maybe closed Mondays and Tuesdays instead, as weekends are usually the best time for families to get together."

St. Boniface residents left high and dry due to staff shortage at pool

City needs standardized rules for use, parks committee chairman says

Hey there, time traveller!
This article was published **16/08/2017** (2391 days ago), so information in it may no longer be current.

The chairman of city council's parks committee says staff might have to standardize new rules for pool use after St. Boniface residents had to wait in the sun over the weekend when the outdoor Happyland pool was short-staffed.

Coun. Mike Pagtakhan (Point Douglas) said unexpected staffing shortages are to be expected, so pool supervisors should follow the system adopted at the city's Freight House pool on Isabel Street.

Pagtakhan said the neighbourhood demand at the Freight House regularly outpaces the pool capacity and the available number of lifeguards. The solution in those situations is that people take turns using the pool.

CITY OF WINNIPEG PHOTO Happyland pool in St. Boniface

"They let people in for a bit, 35 minutes, then they clear the pool with those people getting back in line and the next group goes in," Pagtakhan said. "That's what they have to do sometimes when it gets pretty overwhelming. People are pretty understanding. It works at Freight House."

St. Boniface residents were upset on the weekend when long lineups developed at the pool, located at Happyland Park, at the southwest corner of Marion Street and Rue Archibald.

The regular capacity of the pool is 75 users, but a handmade sign was posted over the weekend that restricted capacity to 30 people, attributing the change to an

unexplained staff shortage.

While the park is undergoing upgrades and renovations, many residents remain disappointed with the pool. There will be no improvements to the change rooms or an extension of operating hours — the pool is only open from 1-6 p.m.

City hall declined to provide an official from the community services department to explain what happened at Happyland, explaining initially only that, in general, pool capacity is adjusted "to accommodate unforeseen fluctuations in our staffing availability."

Later in the week, a civic spokeswoman said Happyland pool normally is staffed with three lifeguards, but one had been reassigned, leaving the pool capacity at 30 users. No explanation was given for the reassignment.

Pagtakhan said when he looked into the situation, he learned there were staff shortages at the outdoor pool in Transcona, and the decision was made to re-assign one lifeguard from Happyland.

Ruth Bonneville / Winnipeg Free Press Files Coun. Mike Pagtakhan said he supports a recommendation to assign a vacant parcel of city-owned land in the Exchange District to CentreVenture.

Pagtakhan said he recommended to the city's pool officials that they consider the ad-hoc solution used at the Freight House when similar situations occur at Happyland or

other pools.

"They said they would consider it," Pagtakhan said, adding the issue is likely to be addressed at a meeting of the parks committee.

If any field is missing information, or is illegible, the entry will be deemed invalid.

Address of affected property and associated public hearing file number	Potential Closure of Happyland Pool - 520 Marion Street (Archwood) Happyland Park
Action petitioned for	**We, the undersigned, object to the above noted application**
	This pool provides activities for people of all ages and is an asset for attracting families to central locations in the City, particularly considering the plan for infill on the Canada Packers site as well as other mid size infill within the surrounding area. The loss of the pool would be a detriment to the surrounding areas, as amenities such as this aid in creating walk-able communities. In order to accommodate kids of all ages, the community would ideally like to see Happyland Pool remain open and the wading pool replaced with a splash pad. Many would rather see the implementation of a small user fee to ensure that the pool remains open and accessible to the surrounding community.

City of Winnipeg – Public Hearing Petition

All pages of this petition must include the description of the matter to which the objection relates. Each page must also include all of the following information for each person in order to be deemed valid.
If any field is missing information, or is illegible, the entry will be deemed invalid.

Address of affected property and associated public hearing file number	Potential Closure of Happyland Pool - 520 Marion Street (Archwood) Happyland Park
Action petitioned for	**We, the undersigned, object to the above noted application**
	This pool provides activities for people of all ages and is an asset for attracting families to central locations in the City, particularly considering the plan for infill on the Canada Packers site as well as other mid size infill within the surrounding area. The loss of the pool would be a detriment to the surrounding areas, as amenities such as this aid in creating walk-able communities. In order to accommodate kids of all ages, the community would ideally like to see Happyland Pool remain open and the wading pool replaced with a splash pad. Many would rather see the implementation of a small user fee to ensure that the pool remains open and accessible to the surrounding community.

City of Winnipeg – Public Hearing Petition

All pages of this petition must include the description of the matter to which the objection relates. Each page must also include all of the following information for each person in order to be deemed valid

If any field is missing information, or is illegible, the entry will be deemed invalid.

Address of affected property and associated public hearing file number	Potential Closure of Happyland Pool - 520 Marion Street (Archwood) Happyland Park
Action petitioned for	We, the undersigned, object to the above noted application
	This pool provides activities for people of all ages and is an asset for attracting families to central locations in the City, particularly considering the plan for infill on the Canada Packers site as well as other mid size infill within the surrounding area. The loss of the pool would be a detriment to the surrounding areas, as amenities such as this aid in creating walk-able communities. In order to accommodate kids of all ages, the community would ideally like to see Happyland Pool remain open and the wading pool replaced with a splash pad. Many would rather see the implementation of a small user fee to ensure that the pool remains open and accessible to the surrounding community.

Action petitioned for	**We, the undersigned, object to the above noted application**
	This pool provides activities for people of all ages and is an asset for attracting families to central locations in the City, particularly considering the plan for infill on the Canada Packers site as well as other mid size infill within the surrounding area. The loss of the pool would be a detriment to the surrounding areas, as amenities such as this aid in creating walk-able communities. In order to accommodate kids of all ages, the community would ideally like to see Happyland Pool remain open and the wading pool replaced with a splash pad. Many would rather see the implementation of a small user fee to ensure that the pool remains open and accessible to the surrounding community.

City of Winnipeg – Public Hearing Petition

All pages of this petition must include the description of the matter to which the objection relates. Each page must also include all of the following information for each person in order to be deemed valid.
If any field is missing information, or is illegible, the entry will be deemed invalid.

Address of affected property and associated public hearing file number	Potential Closure of Happyland Pool - 520 Marion Street (Archwood) Happyland Park
Action petitioned for	We, the undersigned, object to the above noted application
	This pool provides activities for people of all ages and is an asset for attracting families to central locations in the City, particularly considering the plan for infill on the Canada Packers site as well as other mid size infill within the surrounding area. The loss of the pool would be a detriment to the surrounding areas, as amenities such as this aid in creating walk-able communities. In order to accommodate kids of all ages, the community would ideally like to see Happyland Pool remain open and the wading pool replaced with a splash pad. Many would rather see the implementation of a small user fee to ensure that the pool remains open and accessible to the surrounding community.

City of Winnipeg – Public Hearing Petition

All pages of this petition must include the description of the matter to which the objection relates. Each page must also include all of the following information for each person in order to be deemed valid.
If any field is missing information, or is illegible, the entry will be deemed invalid.

Address of affected property and associated public hearing file number	Potential Closure of Happyland Pool - 520 Marion Street (Archwood) Happyland Park
Action petitioned for	**We, the undersigned, object to the above noted application**
	This pool provides activities for people of all ages and is an asset for attracting families to central locations in the City, particularly considering the plan for infill on the Canada Packers site as well as other mid size infill within the surrounding area. The loss of the pool would be a detriment to the surrounding areas, as amenities such as this aid in creating walk-able communities. In order to accommodate kids of all ages, the community would ideally like to see Happyland Pool remain open and the wading pool replaced with a splash pad. Many would rather see the implementation of a small user fee to ensure that the pool remains open and accessible to the surrounding community.

Subject: Opposition to the Closure of Happyland Park Pool

I am writing to you in my role as Minister of Environment & Climate Change within the Manitoba Métis Federation – National Government of the Red River Métis in response to the proposed closure of Happyland Park Pool in St. Boniface. It is imperative that we address environmental concerns while also advocating for the well-being of our communities.

I have been made aware and received requests for support on the petition submitted by the St. Boniface Residents Association to the City of Winnipeg regarding the closure of Happyland Park Pool.

The closure of Happyland Park Pool is part of a larger plan by the city to close several pools and wading pools by 2026, with the intention of replacing them with splash pads starting in 2027. While I understand the city's reasoning, it is important to consider the impact of such closures on the community, particularly when alternatives are not immediately forthcoming. Finance Chair Councillor Jeff Browaty's explanation regarding the operational costs and staffing challenges is noted; however, it is crucial to recognize the value that Happyland Park Pool provides to the residents of St. Boniface.

Contrary to expectations, Happyland Park Pool is actually the least expensive pool to operate in the city, requiring only three lifeguards each season. This suggests that the operational cost argument may not hold as much weight in this particular case. Moreover, the closure of the pool without immediate plans for a replacement, such as a splash pad, leaves the community without a vital recreational resource.

Furthermore, there are environmental considerations that must be taken into account. Happyland Park is home to various species, including turtles, eagles, great blue herons, sandhill cranes, and owls. The Seine River, which runs through the park, supports diverse aquatic life such as bass, catfish, and jackfish. The closure of the pool could disrupt the ecological balance of the area, impacting both flora and fauna.

In light of these concerns, I urge the City of Winnipeg to reconsider the closure of Happyland Pool. I would like to offer my support in advocating for the pool to remain open. Our Government stands ready to contribute to the discussion and work towards a solution that addresses both the financial considerations of the city and the recreational and environmental needs of the community.
Thank you for considering our perspective on this matter. I look forward to a fruitful dialogue and hope for a resolution that benefits all parties involved.

Sincerely,

JoAnne Remillard
Regional Director
Winnipeg Métis Association Inc.

Subject: Opposition to the Closure of Happyland Park Pool

I hope this letter finds you well. I am writing to express my sincere concerns regarding the proposed closure of Happyland Park Pool, a cherished community asset that holds immense values for the residents of the St. Boniface, Archwood area, and beyond.

As the Vice President of the Winnipeg Region for the Manitoba Métis Federation – National Government of the Red River Métis, I have heard firsthand accounts from our Citizens the profound impact that Happyland Park Pool has had on our community. It serves as more than just a recreational facility; it is a symbol of unity, joy, and shared memories for generations of residents.

The concerns raised by Local Citizens echo sentiments of deep attachment and apprehension about the repercussions of losing such an essential amenity. I share their sentiment that closing Happyland Park Pool without a viable replacement plan in place would be a disservice to our community and a short-sighted decision on the part of the city.

Happyland Park and its pool are not merely infrastructure; they are integral components to the community's identity. Countless residents have fond memories of spending summers at the pool, learning to swim, forging lifelong friendships, and enjoying the outdoors and natural beauty of the park.

Moreover, Happyland Park offers a unique recreational experience that is accessible to all members of the community. Its diverse amenities, from walking trails, playground to frisbee golf, complement the pool and contribute to the overall appeal of the park as a gathering place for families and friends.

Furthermore, the closure of Happyland Park Pool would not only deprive the community of a beloved recreational facility but also disrupt the lives of many individuals, particularly teenagers and young adults who rely on such amenities for positive and safe spaces during the summer months.

I am also compelled to address concerns raised regarding staffing difficulties. It is my firm belief that with proactive recruitment efforts and adequate support, the city can overcome these challenges and ensure the continued operations of Happyland Park Pool for the benefit of all residents.

In conclusion, I urge the City of Winnipeg to reconsider its decision to close Happyland Park Pool and instead explore options for rejuvenating or replacing this vital community asset. Let us not deprive current and future generations of the memories, and recreational opportunities that Happyland Park provided for more than 65 years.

Thank you for considering my perspective on this matter. I remain hopeful that together within the community, we can work towards a solution that preserves the legacy of Happyland Pool.

Kind Regards,

Andrew Carrier
