PW 5,6 As we welcome our next half million residents, we all know that traffic congestion will continue to get worse. Even without more reports from more consultants, we all know that St Mary's is among the routes that need more capacity. I recall Councilor Mayes agreeing years ago with his residents that the route needs more capacity. You will do real harm to residents if you kick this work down the road for another year. Please budget and fund capacity increases on any of the routes that we all know need this. We need no consultant report to tell us the obvious.
