REPORTS

Minute No. 8. Request for Expenditure from the City Centre Land Dedication Reserve Fund - Grosvenor School File EP-2 (Vol. 30)

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

The Executive Policy Committee did not concur in the recommendation of the City Centre Community Committee and recommends to Council that the sum of $8,000.00 not be approved to Grosvenor School from the City Centre Land Dedication Reserve Fund to assist with the cost and installation of an intercom system to facilitate a crisis plan including communication signals for various emergency situations such as an intruder in the building, fire alarm or medical emergency that requires 911.

Minutes - Executive Policy Committee - November 20, 2002

DECISION MAKING HISTORY:

Moved by Councillor Gerbasi,
That the recommendation of the City Centre Community Committee be concurred in and forwarded to Council.

Lost

COMMUNITY COMMITTEE RECOMMENDATION:

On September 24, 2002, the City Centre Community Committee recommended to Executive Policy Committee that the sum of $8,000.00 be approved to Grosvenor School from the City Centre Land Dedication Reserve Fund to assist with the cost and installation of an intercom system to facilitate a crisis plan including communication signals for various emergency situations such as an intruder in the building, fire alarm or medical emergency that requires 911.

PRIVATE & CONFIDENTIAL

Garth Steek,
Councillor, River Heights Ward,
Council Bldg.,
510 Main Street,
Winnipeg, MB.,
R3B 1B9.

Dear Councillor Steek;

Further to our conversation, I would like to request your assistance for the purchase and installation of an intercom system for Grosvenor School.

Grosvenor School is a two story elementary school housing 165 students, nursery to grade six, and an early years child day care program (C.A.P.T.) with 19 children ages 2 - 5. The building was constructed in 1922 and has never had an intercom system. In light of the realities we face in our world today, I believe that an intercom system is an necessary part of our school safety plan.

Although unlikely, a crisis could arise that requires a fast and effective means to communicate with teachers in their classrooms. Our current crisis plan includes communication signals for various emergency situations such as an intruder in the building, fire alarm failure or medical emergency that requires 911. These signals are cumbersome and difficult to execute using a hand bell or a fog horn. An intercom system would facilitate fast and effective communications to deal with any crisis situation.

Enclosed is a quotation from Advance Electronics for the purchase and installation of an intercom system. If you are able to provide us with financial assistance, the Winnipeg School Division will require a letter of financial commitment. This letter should be forwarded to Mr. Bob Wilkes, Superintendent South District, Winnipeg School Division.

Thank you for your consideration regarding this matter.

Sincerely,

Helen Strock,
Principal, Grosvenor School.
