RECOMMENDATIONS

1. That an additional project is approved for the 2014 Regional and Local Street Renewal Program to deliver improvements related to developer default of Servicing Agreement AG 215/05.

2. That the 2014 Regional Street Renewal Program budget be amended to include $150,000.00 transferred from Planning, Property & Development Department holding account to partially recover costs related to developer default of Servicing Agreement AG 215/05.

REASON FOR THE REPORT

1. Any new projects using surplus funds in the 2014 Regional or Local Street Renewal Program shall be approved by the Standing Policy Committee on Infrastructure Renewal and Public Works.

2. Council approval is required to increase Capital Budget for a Capital Project.

IMPLICATIONS OF THE RECOMMENDATIONS

Under Servicing Agreement AG 215/05 dated July 27, 2005 a developer was obliged to the City to pave the extension of Leveque Street and the extensions of the existing northbound left turn and southbound right turn storage lanes on Lagimodiere Boulevard at Paterson Street. The City imposed a deadline of November 28, 2013 for this work. The work was not completed by that date. The City considered the developer in default of the Agreement, and therefore made a full draw on the performance security provided by the Developer under the Agreement. The Public Works Department now proposes that the City complete the work as provided for in the Agreement.

The total cost of the work including engineering costs is approximately $279,652.30. The difference between the total cost of this work and the developer default amount received is $129,652.30 and will be funded by surplus identified in the 2014 Regional Street Renewal Program - Lagimodiere Boulevard from Cottonwood to Maginot Capital Project. The Public Works Department included this work in Bid Opportunity 520-2014 which is in the immediate vicinity of Lagimodiere Boulevard from Cottonwood to Maginot which was approved in the 2014 Regional Street Renewal Program and was awarded on December 23, 2014.

The $150,000.00 from the Planning, Property & Development Department holding account was realized from the draw on the developer's performance security. The remainder of the cost is covered by the

2014 Regional Street Renewal Program. Currently all of these unanticipated costs are charged to that budget. Once the work is completed the Public Works Department will ask Legal Services to attempt to recover the remainder of the cost from the developer.

HISTORY

On December 17, 2013, the 2014 Capital Budget was adopted by City Council, which included $35,326,000 in funding in 2014 for the Regional Street Renewal Program.
