Agenda – Council – March 23, 2016

Report – Executive Policy Committee – March 9, 2016

Item No. 4 Capital Project Estimates – Waverley Street Underpass and Northeast Interceptor River Crossing Upgrade

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On March 9, 2016, the Executive Policy Committee, in its capacity as the Audit Committee, concurred in the recommendation of the Winnipeg Public Service and submitted the following to Council.

1. That the report be received as information.

Report – Executive Policy Committee – March 9, 2016

DECISION MAKING HISTORY:

EXECUTIVE POLICY COMMITTEE RECOMMENDATION:

On March 9, 2016, the Executive Policy Committee concurred in the recommendation of the Winnipeg Public Service and submitted the matter to Council.

ADMINISTRATIVE REPORT

Title: **Capital Project Estimates**

Critical Path: **Audit Committee - Council**

AUTHORIZATION

Author	Department Head	CFO	CAO/COO
M. Giles	B. Mansky Acting City Auditor		

RECOMMENDATIONS

That this report be received as information.

REASON FOR THE REPORT

An audit of Capital Project Estimates was endorsed by the Audit Committee in the City Auditor's *Audit Plan 2015–2018*.

The report is being submitted in accordance with the City Organization By-law 7100/97 section 19(d)(iv) that the Audit Committee will "receive and review audit reports, and table such reports with its recommendations at a regular meeting of Executive Policy Committee."

EXECUTIVE SUMMARY

The purpose of these audits is to provide Council with assurance that the estimate classes have been appropriately determined and disclosed for new major capital projects requiring approval in the 2016 Preliminary Capital Budget. Two projects met the threshold for review this year:

1. Waverley Street Underpass at CN Mainline (Public Works Department)
2. Northeast Interceptor River Crossing Upgrade (Water & Waste Department)

Preparation of the estimates and disclosure of the estimate classes for the capital projects is the responsibility of the Public Service. The classification system used by the Public Service is based on the recommended practices of the Association for the Advancement of Cost Engineering (AACE). Those recommended practices provide a system for classifying cost estimates that is primarily determined by the level of design work that supports the estimates, and secondarily by the costing methodology used to develop the estimates.

In our opinion, the project detail sheets of the above-noted capital projects included in the 2016 Preliminary Capital Budget fairly present, in all material respects, the estimate classes for the projected costs based on the recommended practices of the AACE, and the Public Service's Asset Management Initiative framework.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no implications to the recommendation that the report be received as information.

HISTORY

An audit of Capital Project Estimates was included in the City Auditor's *Audit Plan 2015–2018*.

FINANCIAL IMPACT

Financial Impact Statement **Date:** March 2, 2016
