

BY-LAW NO. 3539/83

A By-law of The City of Winnipeg
to revise the Solid Waste By-law No.
1340/76 and amendments thereto, to
express all measurements in metric
units, and to increase the charges
for disposal.

THE CITY OF WINNIPEG, in Council assembled, enacts
as follows:

By-law No. 1340/76 of The City of Winnipeg, as amended by By-laws Nos. 1531/77, 2170/78, 2229/79 and 2510/79, is hereby further amended as follows:

1. Section 2 of By-law No. 1340/76 is hereby amended by deleting subsection (d) thereof and substituting therefor the following:

(d) "Bulky Wastes" means large items of refuse including appliances, furniture, auto parts under 34 kilograms, large crates and tree cuttings approximately 1 metre in length or 100 millimetres in diameter in bundles not exceeding 34 kilograms.

2. Section 2 of By-law No. 1340/76 is hereby further amended by deleting subsection (o) thereof and substituting therefor the following:

(o) "Rubbish" means "combustibles", consisting of miscellaneous burnable materials such as paper, rags, cartons, boxes, broken down and securely tied in bundles not to exceed 34 kilograms, wood excelsior, bedding, rubber, leather and plastics; "non-combustibles", consisting of miscellaneous materials that are not burnable such as tin cans, metals, ceramics, metal foils and glass; and "yard rubbish" consisting of prunings, grass clippings, weeds, leaves, general garden wastes, exclusive of solid wastes otherwise classified herein.

3. By-law No. 1340/76 is hereby further amended by deleting Section 7 thereof and substituting therefor the following:

7. Suitable Containers

Containers for solid wastes shall meet the following requirements:

(a) They shall be of a type approved by the Designated Officer and shall be loaded in such a manner that the contents may be easily removed by collection personnel and shall be:

- (i) Galvanized metallic material or other approved rust-resistant material, water-tight, not larger than 760 millimetres in height and 510 millimetres in width, or a capacity not exceeding 0.14 cubic metres, weighing not more than 11 kilograms and equipped with close-fitting cover and handles;
 - (ii) Tubular receptacles made of not less than 35 micron (.035 millimetre) opaque plastic with a 6 millimetre bar heat seal weld where required and kept tightly closed with suitable ties while containing garbage or rubbish;
 - (iii) Covered metal containers, as approved by the Designated Officer, of a size and type suitable for mechanically dumping into collection vehicles. Such containers shall be used in all locations where the quantity of solid waste equals or exceeds 1.5 cubic metres per week and where suitable conditions exist for mechanical collections;
 - (iv) Any other container approved by the Designated Officer.
- (b) In the case of the containers supplied under Paragraphs 7(a)(i) and 7(a)(ii) above, the combined weight of the container and its contents shall not exceed 34 kilograms.
- (c) All containers shall be maintained in a condition satisfactory to the Designated Officer and shall be kept clean and free of odour.

4. Section 14 of By-law No. 1340/76 is hereby amended by deleting subsection (c) thereof and substituting therefor the following:

- (c) The City will remove all garbage, rubbish and ashes from commercial establishments on a cycle basis or up to twice a week in quantities not to exceed 1.5 cubic metres per pick-up as determined by the Designated Officer.

5. By-law No. 1340/76 is hereby further amended by deleting Schedule "A" thereof and substituting therefor the following:
