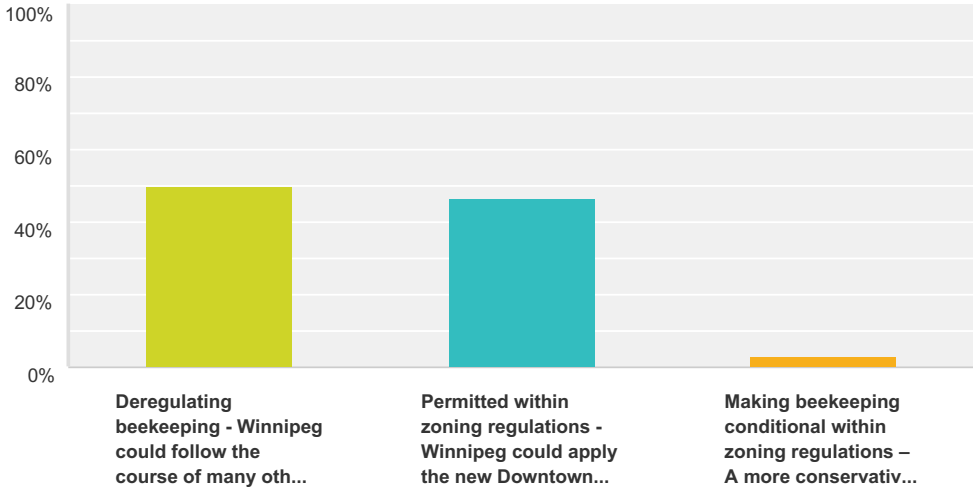
Q2 Do you support expanding opportunities for urban beekeeping in Winnipeg?

Answered: 226 Skipped: 0

	Strongly support	Somewhat support	Neutral	Somewhat oppose	Strongly oppose	Total	Weighted Average
(no label)	**93.81%** 212	**5.31%** 12	**0.00%** 0	**0.00%** 0	**0.88%** 2	226	1.09

Q3 If you support expanding urban beekeeping, should the City explore:

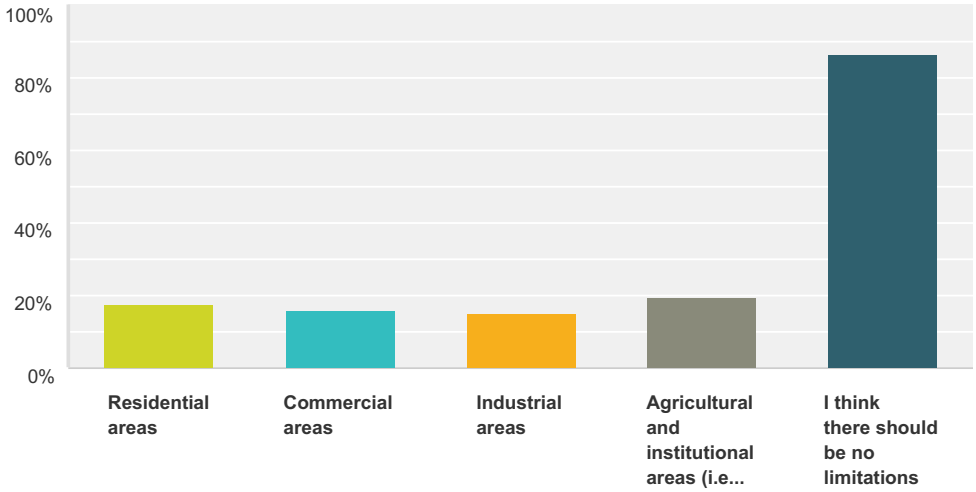
Answered: 223 Skipped: 3



Answer Choices	Responses
Deregulating beekeeping - Winnipeg could follow the course of many other cities in deregulating beekeeping, and relying solely on the oversight provided by the Bee Act of Manitoba. The City would have no oversight and there would be no limits on beehives anywhere.	**50.22%** 112
Permitted within zoning regulations - Winnipeg could apply the new Downtown beekeeping regulations to the entire city, where beekeeping would be permitted through an application process. The applicant must demonstrate that they are adhering to city regulations regarding the number of hives, setbacks and fencing.	**46.64%** 104
Making beekeeping conditional within zoning regulations – A more conservative approach would be to make beekeeping subject to discretionary review with public notice and a public hearing. This is the approach the city currently uses for new apiaries in agricultural and institutionally zoned areas within city limits.	**3.14%** 7
Total	**223**

Q4 Applications for beekeeping could be limited to certain areas. Which areas do you think beekeeping should be limited to? (check all that apply)

Answered: 225 Skipped: 1



Answer Choices	Responses	
Residential areas	**17.33%**	39
Commercial areas	**16.00%**	36
Industrial areas	**15.11%**	34
Agricultural and institutional areas (i.e. the status quo)	**19.56%**	44
I think there should be no limitations	**86.67%**	195
Total Respondents: 225
