Hello Marc

As per our conversation, here are the details regarding the bollard fencing project for HS Paul School.

In early July 2007 Councillor Steeves was asked by the H S Paul Parent Association – Park Enhancement Project to assist in funding new bollard fencing along Ashworth Street South. The fencing is to begin at the south exit driveway of H S Paul School's staff parking lot and extend to the south connecting to the existing bollard fencing at the cross walk crossing Ashworth Street South (as per attached plan).

The reason for the fencing is to prevent cars from driving through the park and on to the newly redeveloped park space, playground area and hard top court surface from Ashworth Street South, as has happened on a number of occasions.

As the project concerns both City of Winnipeg property and Louis Riel School Division property, permission to proceed has been obtained from Planning, Property and Development, Public Works, the principal of H S Paul School and the Director of Facilities of the Louis Riel School Division.

The project will involve 39 new bollards, 8 of which will be on School property and 31 of which will be on City property. The estimate to supply and install is $4200 ($3,320.00 for the 31 located on City of Winnipeg property).

I hope this helps. Please let me know if you need anything else.

Christina
