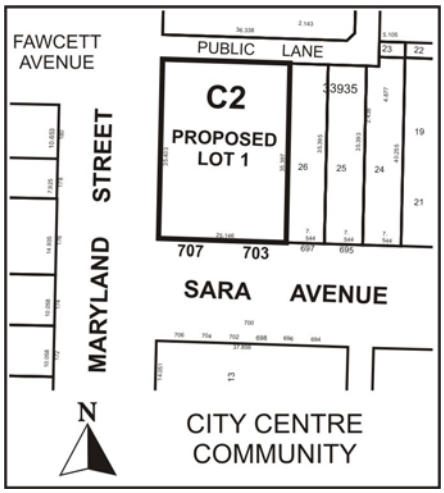
Subject: To subdivide the land shown below to consolidate into one lot and to rezone the land shown outlined below from an "RM-4" Multiple-Family District to a "C2" Commercial District.

Location: 703-707 Sara Avenue
Legal Description: Lots 27 and 28 Plan 33935 WLTO in RL 79 Parish of St. James



Applicant: David Stackiw
Owner: Rosa Anna Stackiw

Recommendation: *Approved with conditions*

Site Description

The subject site is located at the northeast corner of Sara Avenue at Maryland Street and is in the West Broadway Neighbourhood of the Daniel McIntyre Ward. The site is zoned "RM-4" Multiple-Family District. At the western corner of the site (707 Sara) is a one-storey commercial building. Next door to the east (703 Sara) is a vacant site that previously housed a residential dwelling demolished by order of the District Inspector in 2005. The commercial building has non-conforming rights as an established dental office. Surrounding properties are predominantly low- to medium-density multiple-family (zoned "RM-4"). Properties to the east fronting on Sherbrook Street are zoned commercial ("C1.5").

Subject site: aerial photo flown 2005.

Description of the Proposed Development

The applicant proposes to expand the dental office onto the vacant property to the immediate east by consolidating the two properties and constructing a one-storey addition. In order to do so, the entire site must be rezoned to an appropriate commercial district. According the applicant's letter of intent, since they have increased the number of dentists to three, their space has proven insufficient. The nature and extent of their practice will not change with the addition.

Under DAV 07-145264/D, the applicant seeks relief from the front and side yard requirements for the new addition and accessory parking respectively. In addition, a maintenance variance for the front setback of the existing structure is required.

Analysis
West Broadway is designated "Neighbourhood" under *Plan Winnipeg*. This designation accommodates a variety of residential, commercial, institutional, and parks & recreation uses. The subject property is at the boundary between the West Broadway and Wolseley Neighbourhoods. Both of these neighbourhoods are characterized by a mix of residential and commercial uses that contribute to neighbourhood self-sufficiency.

This block of Sara spans between two major traffic arteries. Only two other buildings on this street (both residential) have frontage on Sara Avenue. The rest front onto either Sherbrook or Maryland Street. While Sherbrook Street is the focus for commercial activity in this neighbourhood, a number of corner locations along Maryland Street also have commercial uses. While there is no intent to see Maryland Street convert into a commercial street, its level of vehicular and pedestrian traffic makes limited neighbourhood commercial appropriate. A dental office on the subject property has served the community since 1979. The proposed zoning change is largely intended to legitimize a use that is already well integrated in the neighbourhood.

In order to ensure compatibility of use, scale and character, the Planning and Land Use Division recommends rezoning to "C1" Local Commercial District instead of the "C2" Intensive Commercial District requested, along with a Zoning Agreement. The proposed site plan, with adequate parking at the rear of the site and building access from both the parking lot and the sidewalk, is the ideal configuration for a commercial property in a pedestrian-oriented neighbourhood. The Zoning Agreement is intended to ensure that the proposed redevelopment and any future use of the subject property are sensitive to the established residential uses along Sara Avenue and Maryland Street.

Recommendation
Planning and Land Use Division recommends the subject site be rezoned to "C1" Local Commercial District for the following reasons:

- The proposal is consistent with *Plan Winnipeg*;
- The redevelopment of the vacant 703 Sara Avenue will add vitality to the neighbourhood.
- The proposal will preserve and enhance a valued neighbourhood service.
- The scale of the proposed development is consistent with the character of the neighbourhood.

Conditions of approval are recommended in order to ensure compatibility with adjacent properties and the surrounding area.
