Winnipeg Transit Short Term Network Plan

Service Overview

PRIMARY NETWORK

Rapid Lines
Service every 5-10 minutes
High Frequency, high capacity transit service with transit-only right of way where needed to bypass congestion and move more quickly across the city.

Frequent Lines
Service every 10-15 minutes
Frequent bus service running along major streets to travel downtown or across the city.

Direct Lines
Service every 10-20 minutes
Regular bus service running along major streets to travel downtown or across the city.

FEEDER NETWORK

Connector Routes
Service every 15-30 minutes
Regular bus service for travelling across neighbourhoods and connecting with the Primary Network.

Community Routes
Service every 15-60 minutes
Local bus service for access within neighbourhoods and connecting with the Primary Network.

Limited-Span Service
Service as needed
Local or express bus routes with limited hours of operation, often weekday rush hours only.

On-Request Service Area
Service on request
Shuttle buses or vans providing access throughout their service areas and connecting with the Primary Network.
