IMPLICATIONS OF THE RECOMMENDATIONS

All costs associated with the lane closing are the responsibility of the applicant. There are no financial implications for the City of Winnipeg.

HISTORY

The Planning, Property and Development Department has received a request from Ms. Kim Gallagher representing the property owners of Nos. 1228, 1224, 1220, 1216, 1212, 1208 and 1204 Colby Avenue, to close the public lane so identified on the attached copy of Misc. Plan No. 13657. The intent of the applicants is to purchase one-half of the lane adjoining their properties. The Real Estate Division will offer the other half of the lane to the property owners on Fairfield Avenue. If any of the Fairfield Avenue residents choose not to proceed with the purchase, the entire lane width will be offered to the residents of Colby Avenue for consolidation with their existing holdings. APPENDIX "A"

Reason for the Recommendations

All street and lane closings require the consideration of the Community Committee.

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the public lane closing.

Administrative Comments

The Local Improvement Section of the Assessment and Taxation Department has advised that the proposed lane closure is situated in the *Fairfield Park Local Improvement District.* This area was subject to a number of local improvements that were assessed during a three year period (2006 - 2008). All the privately owned properties were billed for these local improvements based on either their lineal frontage feet or area (square footage), depending on the type of local improvement.

In this situation, a number of property owners will have the opportunity to expand their lot sizes by acquiring part and parcel of this proposed lane closure. As a result, whereby the affected area of these properties would be increased, it would be necessary to have the local improvement costs with respect to the "Pond Stage" recovered from these property owners. The following table depicts the costs that should be recovered from each property:

Transfer of Jurisdiction Over Public Rights-of-Way

The lane must be legally closed before it may be sold. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
