STANDING POLICY COMMITTEE ON PROPERTY AND DEVELOPMENT

QUESTION PERIOD

Minute No. 211
Councillor Smith referred to the electronic sign that was erected without a permit on the Boyd Building by the owner, noting that the appeal was turned down, and questioned what action would be taken to have the sign taken down and if the cost would be added to the owner's taxes or if the legal route would be taken.

Councillor Browaty replied that he understood that the City would enforce the order that had been issued by the Standing Policy Committee and, if that work had not commenced already, it would be in the immediate future and compliance with the process was expected.

Councillor Smith asked if the administration would have a choice between taking legal action or the City taking the sign down and putting the cost on the owner's taxes.

Councillor Browaty advised that the Administration was ready to proceed immediately.
