HISTORY/DISCUSSION

Background

Communities Fund – 2024 - $2 Million in Operating Budget Per Year (*plus Capital Funds of $6.9 Million - 2026-2029)*

In 2024, Council directed the Chief Administrative Officer to create a Communities Fund. Delivering on the Mayor's commitment to expand flexible funding for investments in more neighborhood projects and organizations, at ward level, Councillors can now access the $2 million (citywide total) annual Communities Fund to support neighborhood recreation or community improvement projects, provided they do so in compliance with existing Parks and Recreation Enhancement Program (PREP), Community Incentive Grant Program (CIGP) or Per Capita grant requirements. This funding is over and above other PREP and ward funding. Available funds be divided equally by ward each fiscal year.

Total Citywide Funding:	*$2 Million*
No. of Wards:	*15*
Communities Fund per Ward:	*$133,333*

I. Councillors proposing Communities Fund expenditures must designate each expenditure as falling under one of the following existing criteria envelopes, and any expenditures or awards must be made in compliance with those existing criteria. The eligible criteria envelopes are:

   a. Community Incentive Grant Program;
   b. Parks and Recreation Enhancement Program; and
   c. Per Capita Grants.

II. As an option, ward-specific capital projects that would normally fall under the City Capital Budget may also be designated for Community Fund expenditures upon agreement between the appropriate Community Committee and the designating Councillor, especially where these expenditures would secure funding from additional partners.

III. Expenditures would be reported as coming from the Communities Fund, with a notation on which criteria were used, rather than being reported under the criteria programs.

IV. Recurring operating grants or grant commitments extending beyond a single year are prohibited. Unexpended Communities Funds may be held over in the commitment reserve for up to one year to facilitate pooling for larger community investments.

V. Communities Fund expenditures shall be reported annually (subsequent to year-end financial report) by the Public Service to the appropriate committee of Council, working with the City Clerks' Department, with the report specifying.
