RECOMMENDATIONS

That Section 3. of Schedule 7 of the City of Winnipeg *Traffic By-law 1573/77* be deleted in its entirety.

REASON FOR THE REPORT

The recommendation of the Winnipeg Public Service requires a By-law amendment and must be approved by Council.

IMPLICATIONS OF THE RECOMMENDATIONS

There are no implications associated with the recommendation of the Winnipeg Public Service.

HISTORY

Prior to the Chief Peguis Trail Extension Project (hereinafter referred to as the "CPT Project"), Molson Street was a continuous section of roadway from Grassie Boulevard to Springfield Road. This segment of Molson Street crossed the Cordite Drain on a bridge with a 10,000 kg Weight Restriction.

This restriction is currently Section 3. of Schedule 7 of the City of Winnipeg *Traffic By-law 1573/77*:

3. *No person shall operate a truck or truck tractor, or any vehicle in excess of 10,000 kilograms gross vehicle weight along or over the Molson Street Crossing of Cordite Drain.*

When the CPT Project was constructed between Henderson Highway and Lagimodiere Boulevard, Molson Street was cut off and no longer crosses the Cordite Drain. In addition, the Molson Street Bridge crossing the Cordite Drain was removed last year to allow the extension of the Lagimodiere Boulevard Box Culvert (for the Cordite Drain) for an Active Transportation path

associated with the CPT Project; the weight restriction is no longer required for the structural integrity of the bridge as it does not exist.

The Winnipeg Public Service recommends that Section 3. of Schedule 7 of the City of Winnipeg *Traffic By-law 1573/77* be deleted in its entirety. A draft amendment is provided in Appendix A.
