HISTORY

The work of this contract consists of the mechanical collection of recyclable materials from front end containers for the period from award of contract until January 31, 2018 with the option of two (2) mutually agreed upon one (1) year extensions. This contract will replace the current front end recycling collection contract (68-2006) which expires October 31st 2012.

Although the contract to be awarded pursuant to Bid Opportunity No.1031-2011 will commence on the date of award, the actual collection of recycling from multi-family dwellings and other establishments and payments, will not commence until November 1, 2012 which is after the expiry of the existing contract. Making the contract awarded pursuant to Bid Opportunity No.1031-2011 effective the date of award, facilitates the Contractor being able to purchase equipment necessary to commence the Work on November 1, 2012.

The Bid Opportunity closed on May 28th, 2012, with bids being received as follows:

BFI Canada Inc.	$258,687.80/year
