4. That the financial implications associated with this report be referred to the 2013 – 2015 Budget process.

5. That the proper Officers of the City be authorized to do all things necessary in order to implement the intent of the foregoing.

REASON FOR THE REPORT

The Doing Business in Winnipeg By-law was passed by Council on April 23, 2008, and implemented on June 1, 2008. The By-law has three key principles for licensing businesses in Winnipeg: 1) Public Health Protection; 2) Fire Safety; and 3) Crime Prevention.

Council approval is required to amend the Doing Business in Winnipeg By-law, to accurately reflect business licensing services in Winnipeg.

IMPLICATIONS OF THE RECOMMENDATIONS

Policy Implications

1. The Public Service has reviewed the Doing Business in Winnipeg By-law and proposes the following amendments:

Duration of License Schedule:

a. An annual licence term allows a new licence applicant to operate for a full year, with annual fees being due on the anniversary date of the issuance of the licence. Late annual fee payments will still be subject to existing penalties. The annual licence will not apply to licences specifically issued for limited periods of time, such as Temporary Food Service Establishment licences.

Elimination of Auctioneer, Antique Dealer, Large Public Venue Categories:

b. The licence categories 'Auctioneer' and 'Antique Dealer' may be safely eliminated, as the risk of these venues being used to market stolen goods is not significant. Further, Winnipeg Fire Paramedic Service (WFPS) has a mandated inspection program under the Fire Safety Inspections Regulation, which addresses fire safety in public venues, and eliminating the 'Large Public Venue' licence category will reduce red tape.

Amend Definition of Used Goods:

c. Similar to CDs and LPs, DVDs, movies, and video games will be excluded from the definition of used goods, as administrative costs associated with tracking these items is high and they have limited benefit for crime prevention and enforcement activities. Additionally, 'Used Goods Dealers' who deal exclusively in donated items, automobile parts, specialized medical equipment, sporting goods, appliances, home and office furniture, or children's furniture and clothing pose little risk, and crime prevention-related enforcement activities are not necessary for these types of businesses.

Creation of New License Categories:

d. Creating a new licence category for flea markets allows some operating conditions to be imposed, with oversight by Winnipeg Police Service, for crime prevention purposes. Flea markets usually involve multiple temporary vendors under one roof, and appeal to small-scale businesses that deal primarily in used goods and collectables. Due to the limited nature of the operation, meeting retention and reporting requirements to the WPS is difficult, and the risk of stolen goods at flea markets is low. The licence proposed would have less stringent reporting requirements (this does not apply to precious metals dealers who must meet all applicable licensing and reporting requirements).
e. Creating a new licence category for restaurants who would like to be able to offer off-site catering services improves opportunities to cater special events, and eliminates the requirement for a temporary event licence for each occasion. Catered public events will still be subject to unannounced inspections, to ensure a consistent level of public safety and health protection.
f. A new licence for temporary food service establishments that are seasonal in nature, such as those preparing and serving food at a farmers' market, will allow the vendor to obtain a single licence for the season, and not have to obtain a Temporary Food Service Establishment License every 14 days. Seasonal Temporary Food Service Establishments will still require public health inspections and approvals, the fact that they operate in the same location week after week minimizes the need for repeat inspections.

License Exemption – "Low-Hazard" Temporary Food Service Establishments:

g. Temporary food service establishments serving only low-hazard items generally do not pose a risk to public health, and therefore do not require public health oversight and approvals. Such operations might include beverages or frozen novelties being sold or sampled at special events. These establishments will no longer require a licence under the By-law.

Amend Hostel License Requirement Under Neighbourhood Liveability By-law:

h. Hostels tend to be residential in nature, and licence approvals should include inspections by a By-law Enforcement Officer, to verify compliance with the Neighbourhood Liveability By-law rather than public health inspections.

Amend Converted Residential Dwellings with Shared Facilities License Requirement Under Neighbourhood Liveability By-law:

i. Converted Residential Dwellings with Shared Facilities is the licence required by a typical rooming house. Prior to a new licence application being approved, an Inspection by a By-law Enforcement Officer should be conducted, to ensure compliance with the Neighbourhood Liveability By-law.

License Renewal Allowance:

j. Business operators will be allowed to renew an expired licence upon payment of an administrative fee, for up to one year after the expiry date. This was the case under the old Licence By-law, when a failure to pay the licence fee but otherwise operating in compliance with the By-law was seen as a matter of debt collection rather than a By-law violation.

Bailiff Services:

k. Bailiff services are recommended to improve licence fee collection systems. This proved effective under the old Licence By-law (up to June 2008), with no additional costs to the City.

Technical Amendments:

l. Amendments are being made to improve administration and efficiency, such as adding tools and electronics to the definition of 'used goods', and addressing credit notes as a form of payment from Used Goods Dealers.

2. Recommendations with respect to the Food Service Establishment By-law:

Amend Definition of Food Service Establishment and By-law:

a. Hostels and shared facilities dwellings are primarily residential in nature, and compliance with the stringent kitchen requirements of the Food Service Establishment By-law is unnecessary. Instead, inspections should focus on compliance with the Neighbourhood Liveability By-law to determine compliance with housing and neighbourhood standards.

b. & c. Amendments to the Food Service Establishment By-law are necessary to define catering operations and seasonal temporary food service establishments, and to more accurately reflect the nature of the business they are conducting.

Financial Implications

The Doing Business in Winnipeg By-law amendments recommended in this report will result in decreased revenue in each year ($51,568 in 2013; $85,051 in 2014; $84,992 in 2015 forward). The elimination of the Auctioneer, Antique Dealer, and Large Public Venue licences and the amendment to the definition of a *'Used Goods Dealer'* is proposed to take effect immediately. Prorated refunds, considering the approval month of this report, for those license categories proposed for elimination will be issued.

Recognizing that there is a cost to implement these policy changes, this cost will be addressed through licence rate adjustments, that move towards full cost recovery pricing, during the 2013-2015 operating budget process and will therefore be eliminated upon approval of the 2013 budget.

HISTORY

In its report, the Red Tape Commission recommended simplifying the way we licence and regulate businesses in Winnipeg. As a result, the Doing Business in Winnipeg By-law was passed by Council on April 23, 2008, and implemented on June 1, 2008. The By-law has three key principles for licensing businesses in Winnipeg: 1) Public Health Protection; 2) Fire Safety; and 3) Crime Prevention. Based on these principles and the nature of City services provided, the number of types of business requiring a business licence was reduced from approximately 80 to 29.

DOING BUSINESS IN WINNIPEG BY-LAW

WHAT YOU NEED TO KNOW

The *Doing Business in Winnipeg By-law* (No. 91/2008) was passed by Council on April 23, 2008. The By-law has three key principles for licensing businesses: 1) Public Health Protection; 2) Fire Safety; and 3) Crime Prevention. Based on these principles, the types of businesses requiring a business licence fall into one of the following nine (9) categories:

1. **Body Modification Services (Tattoo and Piercing Shops and Technicians)**
2. **Escort Agencies**
3. **Food Services (Indoor, Outdoor, Temporary, and Mobile)**
4. **Hostels**
5. **Massagists and Massage Parlours**
6. **Multiple Family Dwellings**
7. **Public and Semi-public Swimming Pools and Whirlpools**
8. **Businesses Dealing in Used Goods and Precious Metals**
9. **Used Material Yards**

What are the requirements for a business licence?

- One or more permits or approvals from other City of Winnipeg departments will be required before a licence can be issued.
- All businesses operating at a fixed location must have approval from Zoning to ensure that the location of their business is zoned appropriately for the proposed use. In each zoning district, certain land uses are permitted outright, others are conditional upon approval, and some are prohibited.
- Other approvals that may be required include Fire Prevention, Occupancy, Public Health Inspection, or Criminal Record Checks.
- To find out more about specific licence requirements, visit our website at **Winnipeg.ca/cms/license_branch/business_license.stm**.

What if my business doesn't fall into one of the nine categories above?

- Business types that are not listed in the By-law do not require a City of Winnipeg business licence, but will still require Zoning and Occupancy approvals, along with other permits/licences that may be necessary for the type of business being conducted.
- For more information on applicable permits and licences, visit BizPaL Online Business Permits and Licences at **Winnipeg.ca/interhom/bizpal/**.

Do I require a business licence if I am working from home?

- Home-based businesses do not require a business licence; however, there are still zoning requirements when operating a business from home, and a Home Occupation Permit may be required.
- Queries should be directed to the Zoning Branch of the Planning, Property and Development Department, located at 31-30 Fort Street, or online at **Winnipeg.ca/ppd/zoning.stm**.

How long is a business licence good for?

- Most licences are valid for one year from the effective date (the date the business intends to start operating). The owner of the business is required to renew the business licence prior to its expiry date to maintain the licence in good standing.
- Failure to renew a business licence on time will result in late payment fees, and may result in Common Offence Notices (tickets) being issued to the business owner.

How much does a business licence cost?

- The cost of a business licence depends on the type of business being licenced.
- Visit our website at **Winnipeg.ca/cms/license_branch/business_license.stm** for fees associated with a specific type of business.

How do I apply for a business licence?

- The application form is available on our website at **Winnipeg.ca/cms/license_branch/business_license.stm**. You can also call 311 to request an application by mail, or visit the Licensing Office at 18-30 Fort St. during operating hours to pick up an application in person.
- Submit your business licence application, along with the associated licence fee, by mail or in person to:

The City of Winnipeg
Licensing Office
18-30 Fort St. (Main level of the Fort Garry Place Mall)
Winnipeg, MB R3C 4X3

Hours of operation are Monday to Friday, 8:30 am – 4:30 pm, except holidays. Please note that if you are attending our office in person, new licence applications should be submitted before 4:00 pm, and licence renewals before 4:15 pm, to allow for same-day processing.
