STANDING POLICY COMMITTEE ON

PROPERTY AND DEVELOPMENT

QUESTION PERIOD

Minute No. 623
Councillor Mayes referred to a new protocol between the Canadian Wireless Tele-communications Association and the Federation of Canadian Municipalities pertaining to procedures about the placement of cell phone towers that would require consultations for structures under 15 metres in height. Councillor Mayes inquired on City of Winnipeg's staff's current work in regards to this new protocol for placement of cell phone towers.

Councillor Browaty confirmed that the City was working with those organizations on that protocol and agreed to follow up and provide an information update.

Councillor Mayes inquired if the report would feedback to Council or the Standing Policy Committee on Property and Development. Councillor Browaty advised that he could request that a report be given verbally to the Standing Policy Committee on Property and Development and agreed to find out if there was a request for a formal report.

Councillor Sharma requested an update on the status of the new restaurant opening in Kildonan Park. Councillor Browaty advised that delays were associated with restaurant design issues such as kitchen exhaust, air conditioning and other related HVAC issues. He added that a meeting with the architect, WOW Hospitality and the City was planned for later this week and, at that time, they will have a better idea of when it would open.
