RECOMMENDATIONS

That the Waterway Crossings and Grade Separations - Annual Program be amended to include $250,000.00 transferred from the Insurance Reserve Fund to partially recover costs related to arson damage at Portage Avenue Culvert (Truro Creek).

REASON FOR THE REPORT

Council approval is required to increase Capital Budget for a Capital Project.

IMPLICATIONS OF THE RECOMMENDATIONS

On October 29, 2013 arson destroyed a high density polyethylene liner in the Portage Avenue Culvert at Truro Creek. The total cost of the emergency repair works including removal of the damaged liner, environmental clean-up, and reconstruction including engineering costs and applicable overheads is approximately $437,165.00.

The City is self-insured for this work and the total maximum claim from the insurance reserve fund is $250,000.00. The remainder of the cost is covered by the Public Works Department under the Waterway Crossing and Grade Separations – Annual Program. Currently all of these unanticipated costs are charged to that budget.

HISTORY

The 2013 Waterway Crossing and Grade Separations – Annual Program in the amount of $3,200,000.00 was approved on January 29, 2013.
