Petition against an extension of Gateway Rd./Raleigh St for a major access from E. St. Paul into the city of Winnipeg.

We the undersigned residents of Cornerstone Estate located at 1865 Gateway Road do not support or see any reason to turn Gateway Rd/Raleigh St. into a roadway to allow access into the city of Winnipeg from RM of East St. Paul for the following reasons.

1: Gateway Rd/Raleigh St. are residential roads not major vehicular roadways.

2: The increase of traffic will endanger the safety and health of North Kildonan residents.

3: Traffic flow on Raleigh St. is controlled by 2 way stops at every corner from Knowles to McIvor, which in turn would mean traffic flow would be sporadic. Going onto Gateway would be the same; it also has 2 way stops at the same as locations. This in turn will cause an undue amount of frustration for the residents of North Kildonan and on the part of East St. Paul that is south of the North Perimeter.

4: We as Winnipeg taxpayers do not support this needless plan.

It's time we tell the Government and all members of City Council, that we do not support another vehicle connection into our neighbourhood.

The City of Winnipeg Executive Policy Committee is meeting on Wednesday, April 22nd at 9:00 am at City Hall, 510 Main Street, to deal with a motion regarding the Gateway/Raleigh through pass.

The motion reads:

Item No. 7 East St. Paul Through-Pass

WINNIPEG PUBLIC SERVICE RECOMMENDATION:

1. That the Public Service be authorized to plan for accommodation of cyclists, pedestrians and required emergency vehicles entering the City of Winnipeg from the Rural Municipality of East St. Paul via a properly controlled through-pass constructed beneath PTH 101 (North Perimeter Highway) in the vicinity of the Raleigh Street alignment; and

2. That Council not support accommodation of general traffic entering the City of Winnipeg from the Rural Municipality of East St. Paul via a through-pass constructed beneath PTH 101 (North Perimeter Highway) in the vicinity of the Raleigh Street alignment **at this time.**

As the motion leaves the door open to allow traffic to enter the City of Winnipeg via this through pass at a future date, it's important our voices are heard next Wednesday morning at EPC. I will be making a presentation asking the City to remove "at this time" from the motion or to delay the decision until a public meeting can be held in our community.

Please consider either attending to show your support or to make a presentation. You may also email the Mayor and members of City Council to express your concerns. If you plan to make a presentation on Wednesday morning, you must contact Carlos by 4:30 pm on Tuesday afternoon to register. Please email him at cgameiro@winnipeg.ca or phone 204-986-6631.

For more information email Cathy Cox at cathycox@shaw.ca

Not It in NK
(Neighbours opposed to increased traffic in North Kildonan)
