EXECUTIVE POLICY COMMITTEE

QUESTION PERIOD

Minute No. 250
Councillor Wyatt noted that the Louise Bridge project had not been filed as a Building Canada application and asked if His Worship Mayor Bowman would look into the status of the secondary land use planning in South Point Douglas and suggested that there were great opportunities to renew South Point Douglas tied into the project in the future. His Worship replied in the affirmative.

Councillor Wyatt inquired about the status of the strategy/plan for redevelopment/renewal of the old Public Safety Building and the parkade site; to which His Worship agreed to report back.

Councillor Wyatt also inquired about the status of the Brownfield Strategy and when that report might be forthcoming; to which His Worship agreed to report back.

Councillor Gilroy noted that the Mayor recently visited Arlington Street Bridge and asked for an update on his experience of what he saw on the bridge.

His Worship noted that it was a bit of an eye-opener. The bridge is over a hundred years old, is showing its age, and its days are numbered. He indicated that it is safe for Winnipeggers to use right now but key decisions would have to be made in the future.

Councillor Pagtakhan inquired about the status of the audit results relative to the boil water advisory; to which His Worship replied that the information would be shared with Council as soon as it was available.
