DESCRIPTION OF THE PROPOSED DEVELOPMENT

- The applicant is proposing to repeal in its entirety the Zoning Agreement associated with DAZ 222/91. The intent is to allow for other retail uses within the existing building.

OurWinnipeg, Complete Communities

It is noted that subject site is located on Main St which is a Regional Mixed Use Corridor in *Complete Communities*. On corridors such as Main St, *Complete Communities* strives to create a pedestrian oriented environment which typically means a built form where buildings are located up to the sidewalk. A key enabling strategy of Complete Communities with respect to Regional Corridors is to:

> *Support Active uses (such as retail and services) at street level and office and housing on the upper levels of multi-storey apartments*

The proposed removal of the zoning agreement will facilitate the range of land uses appropriate to a property located on Main St. the property is zoned "C2" as are most of the other properties on Main St. However, the existing zoning agreement means that the subject property does not enjoy the same zoning rights as those other properties because of the restrictive zoning agreement. Only allowing for video sales on the subject site, as stated in the existing zoning agreement, is not consistent with Complete Communities.

ANALYSIS AND ISSUES

Zoning by-law 200/2006

- The subject site is zoned "C2" Commercial District.
- The site currently operates as a video rental and sales store.
- The zoning by-law allows for a robust set of commercial and retail land uses for properties zoned "C2" and even residential dwellings.
- The applicant wishes to cease the video rental / sales use on the subject site and use the space for general retail.
- Since a zoning agreement amendment is necessary to permit retail uses, the Urban Planning Division recommended that the applicant apply to remove the zoning district in entirety as it is too restrictive and that the base "C2" zoning is appropriate for the site's location on Main Street.

Compatibility with Existing Land Uses

- The subject site currently operates as a vendor for video sales and other retail that is accessory. Removing the zoning agreement will allow the building to be used for retail sales in general without the need to have video rental/sales. It is anticipated that the removal of the zoning agreement change the activity on site.
- Given that most of the properties on Main Street are zoned "C2" and reflect the land uses accommodated under the "C2" district, the removal of the zoning agreement will allow for the types of uses already in existence on Main Street. The subject site is surrounded by many other retail stores.
- That the existing building will continue to be in use is important to Main Street. If no other uses are allowed on the subject site except for one now virtually extinct then there is a good chance the building would sit vacant and therefore, not contribute the vitality of the neighbourhood. Removing the zoning agreement enables the property to remain in use.

RECOMMENDATION

1) That the Zoning Agreement Caveat 1464800/1 under File DAZ 222/91 dated September 25, 1991 (By-law 5753/91) be withdrawn.

2) That the Director of Legal Services and City Solicitor be requested to withdraw the subject Zoning Agreement to DAZ 222/91 (By-Law No. 5753/91) as approved in aforesaid Recommendation 1.

3) That the Proper Officers of the City are hereby authorized to execute said Amending Agreement.

4) That the Director of Legal Services and City Solicitor be requested to do all things necessary for implementation in accordance with the terms of The City of Winnipeg Charter.
