REASON FOR THE REPORT:

Negotiations for the acquisition of 109 Selkirk Avenue are now completed and Council approval to the acquisition is required.

HISTORY:

The North Winnipeg Parkway was approved by Council at its meeting of September 22, 1993 as the number one priority out of six parkways for development along the Red and Assiniboine Rivers. In each of the years 1996, 1997 and 1998, the former Parks and Recreation Department constructed sections of the Parkway.

On April 24, 1994, the Director of the former Parks and Recreation Department requested the Director of the former Land and Development Services Department to negotiate the acquisition of river walk easements approximately 5 meters wide over the following riverbank properties:

- 3 Sutherland Avenue
- 103 Selkirk Avenue
- 123 Burrows Avenue
- 126 Alfred Avenue

The Real Estate Division has been negotiating with these owners since that time, but has been unable to secure the required easements due to the extreme demands of these owners.

At its meeting held on July 8, 1999, the Standing Policy Committee on Property and development instructed the Director of the Planning, Property and Development Department to continue to negotiate with the four remaining property owners, and that the Department enhance its efforts to acquire the river walk easements at fair market value.

The Real Estate Division once again attempted to negotiate with the owners, however no settlements could be reached.

In 2000, the Planning and Land Use Division advised that the property at 3 Sutherland Avenue was no longer required as the North Winnipeg Parkway route was adjusted to utilize Annabella Street.

Since it was apparent that the owners of the riverbank lands were not prepared to settle on reasonable terms, other alternatives for the parkway were investigated by the administration.

At its meeting held on July 5, 2001, the Standing Policy Committee on Property and Development considered a report from the Director of the Planning, Property and Development Department and instructed the Director to:

1. Negotiate the acquisition of a) either 103 Selkirk Avenue or one property within the area identified as “Acquisition Area A”; b) two adjacent properties within the area identified

as “Acquisition Area B”; and c) two adjacent properties within the area identified as “Acquisition Area C”, all as shown on the attached Misc. Plan No. 11173.

2. Negotiate options to purchase, at his discretion, on the above properties.

At its meeting held on July 23, 2003 Council adopted the recommendation from the Standing Policy Committee on Property and Development to acquire 148 Alfred Avenue and 145 Burrows Avenue subject to the successful rezoning of the properties to parkland, thus linking the North Winnipeg Parkway between the former Pritchard Boatyards and the Aberdeen Playground. The rezoning process is in progress and should be completed shortly.

The Real Estate Division once again attempted to contact the owner of 103 Selkirk Avenue to determine whether or not he would be prepared to sell his property. Once again there was no response. The Division then contacted the next property owner at 107 Selkirk Avenue and determined that there was no interest in selling this property at this time.

The owner of 109 Selkirk Avenue was contacted in July, 2002 and it was determined that they were not willing to sell within reasonable terms and conditions.

In June, 2003, one of the joint owners of 109 Selkirk contacted the Real Estate Division to advise that they were now prepared to sell their property.

Particulars of the subject property are as follows:

Location:	109 Selkirk Avenue
Legal Description:	Lot 14, Plan 31559
Certificate of Title:	1728028
Registered Owners:	Anastasia Ens & Evgenii Ens
Realty Roll No.:	14-023170000
Assessment:	$35,450.00 (1999)
Zoning:	R-2 (Residential)
Site Size:	211.25 m2
Description:	A two-storey, 1642 sq. ft. single family dwelling on a full basement, in fair to good condition for its age.

DISCUSSION:

The subject property is the last property required in order to connect the North Winnipeg Parkway from The Forks to Kildonan Park. Although this is not the preferable location for the riverbank pathway, it is the only means to keep the public in close proximity to the river. Currently parkway users have to detour out to Austin Street around the block between Selkirk and Pritchard Avenues.

The property owners at 109 Selkirk Avenue were originally asking $58,500.00. After the passage of time and further negotiations, the owners have now agreed to sell the property to the City for $32,000.00 and in accordance with the terms and conditions contained in the attached Schedule “A”.

An independent appraisal fully supports the proposed purchase price of $32,000.00. The Real Estate Division is of the opinion that the proposed purchase price and associated terms of sale are reasonable. Thus, the Division is recommending that the City complete this purchase at the proposed purchase price and in accordance with the attached Schedule "A". The terms and conditions contained within the Schedule "A" are consistent with previous acquisitions of this nature.

The property will need to be cleared of structures to facilitate the construction of the pathway. As a result, the Department is recommending that it be authorized to proceed with the demolition or removal of the structures upon the receipt of Title in the City's name.

Funding for this acquisition and clearing of the site is available in Account No. 001-182000-630801-63000060wl. The total budget amount required in order to complete this transaction and to demolish or to remove the structures is $44,500.00.
