HISTORY / DISCUSSION

On December 14, 2016, Council approved and directed the Winnipeg Public Service to undertake all things necessary to bring the collection into the Winnipeg Public Service with enough flexibility to allow environmental efforts from organizations for specific types of bulky waste. Council also directed the Winnipeg Public Service to report back to Council (through the appropriate Standing Policy Committee) for consideration prior to February 2017 with a plan that includes the results and costs from the analysis, timeline and process currently ongoing.

To ensure the continuation of service of the collection of Large Items (Bulky Waste) and Abandoned Large Items (Bulky Waste) beyond September 30, 2017 (the end dates of the current service contracts), external services must be procured on a single source basis for an October 1, 2017 start date.

On April 19, 2017, Executive Policy Committee approved a single source negotiation with Halton Recycling Ltd. dba Emterra Environmental, Waste Connections of Canada Inc. (formerly known as Progressive Waste Solutions Canada Inc.), Miller Waste Systems Inc., and GFL Environmental Inc., respectively, concerning provision of services to collect Large Items (Bulky Waste) and Abandoned Large Items (Bulky Waste) from entitled properties for a one year period beginning October 1, 2017 and ending September 30, 2018, with the option of one (1) mutually agreed upon one (1) year extension for the period October 1, 2018 to September 30, 2019, to ensure continuity of Large Items (Bulky Waste) and Abandoned Large Items (Bulky Waste) collection service after the end of the existing collection contracts, pursuant to B4.1 (e) of the Materials Management Policy, where the cost of solicitation of competitive offers at this time is reasonably anticipated to exceed the benefits thereof, be approved.

The work to be done under the contract includes the Collection and Delivery of Large Items (Bulky Waste), Abandoned Large Items (Bulky Waste), Recycling Depot Collection, and the performance of Extra Work, within the City of Winnipeg, for entities entitled to such services as governed by the Solid Waste By-law.

Under this Contract, the Collection and Delivery of Large Items (Bulky Waste), Abandoned Large Items (Bulky Waste), Recycling Depot Collection, and the performance of Extra Work as a whole, shall commence on October 1, 2017 and continue until September 30, 2018, with the option of one (1) mutually agreed upon one (1) year extension.

The Single Source Negotiations and subsequent modified competition closed on May 16, 2017, with bids being received as follows:

Waste Connections of Canada Inc. (formerly known as Progressive Waste Solutions Canada Inc.)	$ 882,031.98
Halton Recycling Ltd. dba Emterra Environmental	$1,625,376.00
Miller Waste Systems Inc.	$1,521,323.58

GFL Environmental Inc. did not submit a bid.

The Water and Waste Department is satisfied that the low Bidder has the necessary resources to perform all of the work in accordance with the requirements of the specifications. The low Bidder has satisfactorily carried out previous works of a similar nature.

The recommended Contractor has a workplace safety and health program meeting the requirements of The Workplace Safety and Health Act (Manitoba), as confirmed in a letter dated May 23, 2017, from an independent reviewer acceptable to the City.

The bid recommended for acceptance is the low bid meeting all requirements of the specifications. This offer is open for acceptance until September 23, 2017
