REPORT SUMMARY

Key Issues:

- The owners of No. 104 Riverbend Crescent have applied to purchase the portion of the boulevard identified as "Proposed Closing" on Misc. Plan No. 12499/1. The property owners pay an annual fee for the encroachment of a hedge and fence into the boulevard. The Public Works Department has advised that a portion of the boulevard 1.5 metres in width between the curb and the encroachment area must be retained for snow storage purposes. The closing and sale of the balance of the boulevard will reduce, but not eliminate, the encroachment area.

REASON FOR THE REPORT:

All street and lane closings require the consideration of the Community Committee.

HISTORY:

Riverbend Crescent was created in 1946 by the subdivision of the adjoining lands.

The Planning, Property and Development Department has received a request from the owners of No. 104 Riverbend Crescent to purchase the portion of boulevard identified as "Proposed Closing" on Misc. Plan No. 12499/1. The property owners are currently paying an annual fee for the encroachment of a hedge and fence into Riverbend and they wish to own this area and as much of the boulevard as the City is willing to sell.

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing.

The Transportation Division of the Public Works Department has advised that a portion of the boulevard 3.0 metres in width between the curb and the portion of the street proposed to be closed must be retained for snow storage purposes. A reduction of the snow storage area within the encroachment area to 1.5 metres will be allowed in this case. The closing and sale of this portion of the street will reduce, but not eliminate, the encroachment.

Easements

MTS has advised that it will require an easement for the maintenance of a buried cable at Portage and Riverside.

Transfer of Jurisdiction Over Public Rights-of-Way

The street must be legally closed before it may be sold. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.

Corporate Finance Department – Local Improvements

Manitoba Hydro and Shaw Cable did not respond to the request for their easement requirements. It is assumed that they have no plants in the area proposed to be closed.
