Subject: Portage and Main

This is the dumbest thing I have ever heard. We spent tons of money closing it and building under it because the traffic was horrific and extremely dangerous for pedestrians. I can remember taking 15 minutes in the winter to be able to cross because of the traffic and snow and then it was scary. Traffic is much heavier now as I see it its just another reason I wouldn't come downtown anymore. So Mr Smiley Bowman quit grinning and do something positive instead of pie in the sky ideas like opening Portage and Main for pedestrians. Val Johnson
