I would like to go on record with the Executive Policy Committee of the City of Winnipeg Council in support of the motion to be brought to EPC on November 8, 2017 as Agenda Item No. 5 which supports the Along Wilkes Alignment as the only viable option for the East/West connection of Sterling Lyon Parkway to the proposed extension of the William R. Clement Parkway.

Subject: Support of motion No. 5, November 8, 2017 committee meeting

Hello,
I would like to record my views on the public record with the EPC in support of the motion to be brought to the committee November 8, 2017 as Agenda Item No. 5. I'm asking you to support Marty Morantz and the Along Wilkes Alignment as the only viable option for the East/West connection of Sterling Lyon Parkway to the proposed extension of the William R. Clement Parkway. I am opposed to any proposal that runs the road through our neighborhood.

I live at 1384 Liberty Street & the most recent proposal (option #4 discussed at the IRPW committee meeting October 31, 2017) would

directly affect myself, husband & 3 children as the road would require demolition of our house & property. We received no notice from the City about this proposal & only heard about it when a neighbor notified us on Oct 19, 2017.

I understand the need for growth & for an East-West route. Being a designer by trade I also appreciate the work that has gone into exploring different out-of-the-box options. However I believe that any proposal that pushes a road through our neighborhood would ruin a very unique & irreplaceable area of the city. Not just the properties directly affected by the road would be ruined, this affects a whole community of people.

I am a relatively new resident to this area having moved here in September 2016 after an exhaustive search. We chose this area because it uniquely blends city & country living. We haul water, drive down gravel roads, dodge deer & maintain septic systems as a trade off for the things we value most: mature trees, large properties, quiet, high speed internet access, and proximity to our children's schools & community sports. We highly value our city-country property & have worked hard this past past year putting in a new garage, septic tank, landscaping & house repairs to build a foundation for our family's future & our retirement.

I believe our South Wilkes community contributes to Winnipeg's character & should not be destroyed. Many families including ours have become very distressed since learning of the various plans to literally run a road through our houses & backyards. The human cost is too high to continue to explore options other than the twinning of Wilkes & I hope you will agree.

Regards,
Ainsley Price
