Subject: Wilkes Ave and Sterling Lyon Expansion

Dear Mr. Gameiro

We are writing this letter to ask you as the City Clerk to put our views on record with the City of Winnipeg at the Executive Policy Committee meeting on Nov 8, 2017 at 9:00 am. We are VERY strongly opposed to the proposed William R. Clement Parkway that would see a major 4-lane highway cutting straight across our property a mere 150m from our front yard!!
We have lived at 2790 Wilkes Ave. for over 35 years and have enjoyed a calm life in the suburban outskirts of the city. In the last few years there has been a considerable increase in property development with the addition of IKEA and Cabelas to the extended neighbourhood and of course there has been an increase in the traffic load on Wilkes Ave. We realize there is a need for change to the traffic infrastructure but we **cannot** accept that the only best solution to the situation is the William R. Clement Parkway extension as it was proposed by WPS Engineering.
The lack of oversight and public participation in a project that is so extensively impacting our Southwest Charleswood community is inexcusable. The only power that we as citizens can exert is through our voices.
My husband Richard Hooker and myself, Patricia Woodman-Hooker would like to ***LOUDLY*** voice our opposition to the William R. Clement Parkway and give strong resounding support to the concept of twinning the existing Wilkes Ave roadway.
Please convey our opinions as they have been expressed to the Executive Policy Committee and to any and all councillors that have any connection to this matter.
With much concern,

Richard Hooker and Patricia Woodman Hooker
