Subject: South Winnipeg Rec facilities

Mr. Gameiro,

We moved to Winnipeg in 2014 with a young baby in tow. We were sold on the green spaces, walking paths, school to be built across the road from us and numerous other benefits promised to residents of Bridgwater Forest.

Three years later the landscaping in not maintained, the paths are deteriorating, the school has been cancelled and no recreational facilities are on the horizon. And yet, our first child is old enough for us to be looking for these amenities and we continue to grow our family. Thus leaving us driving far and seriously reconsidering our move to Winnipeg.

As it is we do not support the proposed budget which lacks the funding for recreation facilities in South Winnipeg.

Please be advised I would like my email submitted to the Executive Policy Committee for consideration.

Justice
