Carlos,

Very upset to hear that there will be no allowance in for the development of any recreation facilities for the next 5 years. Our area continues to grow but also is becoming a mature and well populated part of the City of Winnipeg. Our children and adults are forced to participate in recreational activities in already crowded facilities in south Winnipeg and that was always viewed as a temporary situation during initial stages of the Bridgewater development. You are more than willing to incorporate the taxes from our area into the coffers of the city of Winnipeg and those taxes are willing paid with the expectation that our area would receive amenities that other Winnipeg neighborhood enjoy. To close the door for 5 years is unacceptable and any budget that is tabled that excludes Bridgewater will not be accepted.

We expect your team to reconsider your budget and the City's commitments to our neighborhood. You are affecting the value of our community and your assessments will be called into question if we are short changed versus amenities nearby neighborhoods enjoy.

Best to you and yours,

Bob and Jeanne Turner
