Subject: Budget Proposal

My name is Karen Teasdale and I am sending this email in opposition to the budget proposal regarding recreation infrastructure in South Winnipeg. I have lived in both Waverly Heights and now Richmond West for the last 20 years and am appalled at the lack of both planning and resource distribution in regards to both recreational facilities and educational requirements in this area during that time. I do not support what has been proposed for funding in this regard in the upcoming budget and the direction on this is and will be a factor when determining who we want to see in a leadership position during the next election for mayor. This is a common thread amongst myself and many of my peers within the community – that enough is enough. Everyone is beyond frustrated and fed up with how this has been handled and something needs to change. At the very least a step in the right direction, which the proposed budget is not. Please listen to the community members that voted for you and help enable the building of better communities within our city by supporting these initiatives.
