Subject: Re: EPC meeting registration

Below, my message to the Committee:

As a resident of South Winnipeg, we have a lack of space for programming, no sense of community and no place for community events. Recreation is a basic service especially for this new part with families with young kids. Our neighbourhood is crowded by young families with young childrens, Our city should invest in this new generation that we hope will become strong. We pay a very high taxes and we worth to have a best services. We hope that our mayor will hear our voice.

Thank you.

Ilham Fares
