Extensive environmental clean-up
Proposed 2-storey mixed-use office/retail 12,000 S.F. +/-

Site Description

Existing Land Use and Zoning

The subject site is currently split zoned into a north portion and south portion, the northerly designation fronting on Grant Avenue is zoned 'C1' Commercial. The southerly portion is zoned 'R1-4A' Residential.

Surrounding Land Use and Zoning

North: Grant Avenue then 'C1' Commercial (small strip mall)
South: 'R1-4A' Residential
East: Waverley Street then 'C1' Commercial (offices)
West: Back Lane then 'R1-4A' Residential

Background

The subject site was an Imperial Oil Gas Station and has been vacant for the past 8 years and has undergone extensive environmental clean up. The prospective property owner has enlisted the services of Pre-Con Builders to develop the property with a mixed used office/retail facility.

Description of the Proposed Development

The new owner intends to develop the property with a 2-storey, 12,000 square foot +/-, mixed-use office/retail facility. Some of the uses may include medial / dental offices, health / tanning salons and retail such as children's clothing. The development will face Grant Avenue with parking in the front and rear of the site. Access will be gained off of both Grant Avenue and Waverley Street.

Analysis

Plan Winnipeg Compliance
The subject site is within the 'Neighbourhood' designation in Plan Winnipeg. Policy 3A-01 Promote Orderly Development promotes a local neighbourhood identity with a mixed use of residential, educational, commercial, etc. at a compatible scale and density. Policies 3B-01 Promote Vibrant Neighbourhoods and 3B-05 Promote Commercial Densification discuss encouraging and promoting mixed uses in residential areas and commercial densification where appropriate.

Compatibility with Existing Neighbourhood and Surrounding Uses
The intersection of Grant and Waverley is presently occupied by several retail / office uses that are zoned Commercial. A Shell Gas Station operates at the northeast corner; an office building is at the southeast corner and a small strip mall with a bank, a hairdresser and other small retail uses. The proposed office / retail development of the southwest corner appears to be a compatible fit with the existing uses and compatible with the neighbourhood.

Single family dwellings exist to the south of the proposed development, the developer is proposing a 6-foot high solid wood fence with a 10-foot landscape buffer along the south property line to help mitigate any impact to the residents.

Transportation and Site Access
There will be two means of access to the site. The development will make use of the existing entrance off of Grant Street adjacent to the Waverley / Montrose back lane. The second means of access is proposed off of Waverley Street. It will be limited to a right in/out access due to the existing median on Waverley Street. The proposed accesses have been reviewed and adjusted by the City's Transportation Division. Their preferred design and layout has been added as a condition of the rezoning approval.

Site Design Issues
The proposed 2-storey office / retail building will be located approximately 60 feet back from the front property line at Grant Avenue and 21 feet back from the Waverley flankage. The west side of the building will be set 2 feet off the property line shared with the back lane. The developer is proposing a 2-foot high retaining wall planted with climbing vines and trellises along the west wall of the building. The site plan shows 9 parking stalls in front of the building facing south against the building. The developer is proposing an 11-foot landscape strip along the majority of the front of the property. The building itself has an approximately 6,000 square foot footprint. A 6-foot high wooden fence is proposed along the remainder of the west property line and the southern property line to provide screening and prevent access on to the back lane from the rear parking area. The site plan shows 31 parking stalls and will require a variance from the 32 stall requirement.

The Planning and Land Use Division recommends approval for the following reasons:

- It complies with Plan Winnipeg 3A-01, 3B-01 & 3B-05
- It is compatible with the existing neighbourhood and uses
