South: 'C2' Commercial
East: Burnell Street then 'R2-T' Residential
West: Banning Street then 'R2' Residential

Description of the Proposed Development

The rezoning application is accompanied by a variance to permit the maintenance of the school building and structures and a conditional use to permit the maintenance of the school use itself. The intent is to consolidate the separate play areas, closing the back lane to public use while still allowing the school busses to use the lane for drop off and pick up.

Analysis

Plan Winnipeg Compliance
The Public Safety, Health and Education chapter in Plan Winnipeg discusses policies such as; 4A. Making Our Communities Safer and 4B. Promoting Safety Through Design. Presently, a public lane running east west bisects the Greenway School playground. Students and teachers must regularly cross the lane to access all of the schoolyard play areas, fields and structures. By consolidating the parcels and closing the lane the Winnipeg School Board is increasing the safety of those moving back and forth between the two school properties.

Transportation and Site Access
Although the lane will be closed to the public it will still function as and internal driveway to permit the school bus circulation. The entrance onto the lane from Burnell Street will be gated. The gate will be opened at the beginning and the end of the school day to allow the arrival and departure of the school buses. Bollards and the school's garbage enclosure will be located at the west end of the lane.

Site Design Issues
The School Division has hired a Landscape Architect to provide site development drawings for the lane closing, gates, fencing, bollards and landscaping. The applicant indicated that they would provide a painted pedestrian walkway across the lane. The Branch will recommend to the School Division that the garbage bin(s) be set within an appropriately screened garbage enclosure.

Recommendation

The Planning and Land Use Division recommend approval for the following reasons:

- It complies with Plan Winnipeg 4A-01 & 4B-03
- It is compatible with the existing neighbourhood and uses

Recommended Conditions of Approval

That the plan of subdivision proposed under File No. DASZ 38/05 be approved for preparation as a plan of subdivision by a Manitoba Land Surveyor in accordance with Schedule "A" for File No. DASZ 38/05, attached hereto and dated August 18, 2005, for registration in the Winnipeg Land Titles Office.
