Subject: City Budget

Good day,

It is absolutely appalling the type of budget the city is trying to pass during a public health crisis. The richest neighborhoods in Winnipeg are keeping their libraries and rec centers while you take away essential services from the places in Winnipeg that need the most help. You are dragging the city I love backwards rather than helping it to move forward.

I would like to register to appear as a delegation at the March 18 meeting of EPC to speak against the 2020-2023 budget.
