INTER-OFFICE MEMORANDUM

TO:	**Marc Lemoine** City Clerk	**FROM:**	**Robert N. Cox** Legal Services
FILE:	G.3/2020(11)	**DATE:**	March 16, 2020

RE: Sewer By-law
Amendment 2020-2023 multi-year budget

Please find enclosed a by-law to amend the Sewer By-law.

This amending by-law implements recommendation “CC” and “DD” of the Budget approved by Council on March 6, 2020, which provided as follows:

CC. That Council enact amendments to the Sewer By-law No. 106/2018 to ensure that the City continues to pay private sewer service pipe repairs under section 41 for pipes serving owner-occupied single family dwellings and duplexes but discontinue paying private sewer service pipe repairs for those serving other buildings.

DD. That Council enact amendments to section 98 of the Sewer By-law No. 106/2018 to adjust the annual credit applicable to total sewer charges and overstrength wastewater surcharges for qualifying properties from 30% of the total sewer charges and overstrength wastewater surcharges to 20% effective January 1, 2021, 10% effective January 1, 2022 and zero % effective January 1, 2023.

Also note that we opted to use the definition of “Two Family Dwelling” rather than “duplex”.

Since the substance of the By-law has already been approved by Council, Legal Services suggests that it can be brought to Council’s agenda as a communication.

If you have any questions concerning this By-law, please feel free to contact me.
