REASON FOR THE REPORT:

All street and lane closings require the consideration of the Community Committee.

HISTORY:

The subject lane was created in 1909 by the subdivision of the adjoining property. The lane is unimproved and serves no apparent public purpose.

The Planning, Property and Development Department has received a request from Mr. Mario Constantini of A.D.M. Building Services to purchase the public lane identified as "Proposed Lane Closing" on the attached Misc. Plan No. 12607. Mr. Constantini intends to incorporate this lane into DASZ 34/2005, his application to subdivide and rezone the adjacent land.

DISCUSSION:

Administrative Approval

The proposal has been considered by all affected City departments and public utilities. There are no administrative objections to the closing.

The Public Works Department advises that a turnaround to accommodate vehicles at the terminus of the existing lane could be constructed in the City property adjoining to the south, if required.

The Administration, Revenue and Local Improvement Section of the Corporate Finance Department advises that local improvement levies for a wastewater sewer fronting on McGillivray Boulevard may be affected by the lane closing and the lotting of the proposed subdivision.

Easements

There are no services in the lane. No easements will be required.

Transfer of Jurisdiction Over Public Rights-of-Way

The lane must be legally closed before it may be incorporated into the subdivision. Title to all public rights of way in Manitoba is vested in the name of the Province. The registration in the Winnipeg Land Titles Office of a closing by-law removes the public right of way status from the land and vests the ownership of the property in the City's name. The City is not entitled to dispose of the land until this has been done.
